(1) following the successful joint technology ca-
pability demonstration that the counter-electronics
high power microwave missile project (in this section
referred to as “CHAMP”) conducted last year, the
Air Force should examine the results of the dem-
onstration and consider the demonstration as a po-
potential solution during any analysis of alternatives conducted in 2014;

(2) an analysis of alternatives is an important step in the long term-term development of a high power microwave weapon;

(3) additionally, a near-term option may be available to get such capability to commanders of the combatant commands should the capability be required;

(4) the Secretary of the Air Force should pursue both near- and long-term high power microwave weapon systems;

(5) CHAMP could be developed as a cruise missile delivered weapon with target availability to commanders of the combatant commands by 2016; and

(6) such development should not prohibit or divert resources from an analysis of alternatives and long-term development of a high power microwave weapon.

SEC. 225. LIMITATION ON AVAILABILITY OF FUNDS FOR SPACE-BASED INFRARED SYSTEMS SPACE PROGRAM.

Of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2014 for the Department of Defense, not more than 50 percent may
be obligated or expended for the space-based infrared sys-
tems space modernization initiative wide-field-of-view
testbed until the Executive Agent for Space of the Depart-
ment of Defense certifies to the congressional defense
committees that the Secretary of Defense is carrying out
the Operationally Responsive Space Program Office in ac-
cordance with section 2273a of title 10, United States
Code.

Subtitle C—Missile Defense
Programs

SEC. 231. PROHIBITION ON USE OF FUNDS FOR MEADS
PROGRAM.

(a) Prohibition.—None of the funds authorized to
be appropriated by this Act or otherwise made available
for fiscal year 2014 for the Department of Defense may
be obligated or expended for the medium extended air de-
fense system.

(b) Harvesting Technology.—

(1) Notice and Wait.—The Secretary of De-
fense may not carry out actions described in para-
graph (2) until a period of 120 days has elapsed fol-
lowing the date on which the Secretary notifies the
congressional defense committees of the plans of the
Secretary to carry out such actions.
(2) **Actions described.**—Actions described in this paragraph are actions relating to harvesting technology of the medium extended air defense system.

(c) **Report.**—

(1) **In general.**—Not later than February 15, 2014, the Secretary of the Army shall submit to the congressional defense committees a report on the opportunities to harvest technology of the medium extended air defense system to modernize the various air and missile defense systems and integrated architecture of the Army, based on the report required by section 226 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112–239; 126 Stat. 1678).

(2) **Matters included.**—The report under paragraph (1) shall include the following:

(A) A review of current Army and joint requirements to which any harvested technology of the medium extended air defense system might be applied.

(B) The timeline of the Secretary for completion of an analysis of alternatives to technologies and systems being considered for harvesting.
(C) An overview of the planned acquisition strategy for any major systems being considered for harvesting and for insertion into the integrated air and missile defense architecture.

(d) APPLICATION.—The prohibition in subsection (a) may not be superseded except by a provision of law that specifically supersedes, repeals, or modifies such subsection.

SEC. 232. ADDITIONAL MISSILE DEFENSE SITE IN THE UNITED STATES FOR OPTIMIZED PROTECTION OF THE HOMELAND.

(a) FINDINGS.—Congress makes the following findings:

(1) President George W. Bush and President Barack Obama have each recognized the necessity for an additional measure of protection—beyond missile defense sites in Alaska and California—for defending the United States against intercontinental ballistic missile (ICBM) threats emanating from the Middle East.

(2) General Jacoby, the Commander of the United States Northern Command, testified before Congress that “we should consider that Iran has a capability within the next few years of flight testing
ICBM capable technologies” and that “the Iranians are intent on developing an ICBM”.

(3) General Kehler, the Commander of the United States Strategic Command, testified before Congress that “I am confident that we can defend against a limited attack from Iran, although we are not in the most optimum posture to do that today * * * it doesn’t provide total defense today”.

(4) General Jacoby also testified before Congress that “I would agree that a third site, wherever the decision is to build a third site, would give me better weapons access, increased GBI inventory and allow us the battle space to more optimize our defense against future threats from Iran and North Korea”.

(A) to conduct environmental impact studies for three potential locations for an additional missile defense site capable of protecting the homeland; and
(B) to develop a contingency plan in case the President determines to proceed with deployment of such an additional site.

(6) According the Missile Defense Agency, the cost to deploy up to 20 ground-based interceptors (GBIs) at a new missile defense site on the East Coast of the United States is approximately $3,000,000,000 and would require approximately 5 to 6 years to complete.

(b) ADDITIONAL MISSILE DEFENSE SITE.—

(1) IN GENERAL.—The Missile Defense Agency shall construct and make operational in fiscal year 2018 an additional homeland missile defense site capable of protecting the homeland, designed to complement existing sites in Alaska and California, to deal more effectively with the long-range ballistic missile threat from the Middle East.

(2) REQUIREMENT IN ADDITION TO OTHER REQUIRED ACTIVITIES REGARDING MISSILE DEFENSE SITES.—The Missile Defense Agency shall carry out the requirement in paragraph (1) to construct and deploy an additional homeland missile defense site (including any advance procurement and engineering and design in connection with such site) while continuing to meet the requirement to prepare environ-
mental impact statements and a contingency plan
under section 227 of the National Defense Author-
ization Act for Fiscal Year 2013 for the missile de-
defense sites described in that section.

(3) REPORT.—Not later than 180 days after
the date of the enactment of this Act, the Director
of the Missile Defense Agency shall submit to Con-
gress a report on the missile defense site required to
be constructed and deployed under paragraph (1).
The report shall include a description of the current
estimate of the funding to be required for construc-
tion and deployment of the missile defense site, in-
cluding for advance procurement, engineering and
design, materials and construction, interceptor mis-
siles, and sensors.

SEC. 233. LIMITATION ON REMOVAL OF MISSILE DEFENSE
EQUIPMENT FROM EAST ASIA.

(a) POLICY.—It is the policy of the United States
that—

(1) the missile defenses of the United States
provide defense against multiple threats, including
threats to the United States, allies of the United
States, and the deployed forces of the United States;
(2) the elimination of one threat, for example
the illegal nuclear weapons program of a rogue
state, does not eliminate the reason the United
States deploys missile defenses to a particular re-
gion, including to defend allies of the United States
and deployed forces of the United States from other
regional threats.

(b) LIMITATION.—Except as provided by subsection
(c) or (d), none of the funds authorized to be appropriated
by this Act or otherwise made available for fiscal year
2014 or any fiscal year thereafter may be obligated or ex-
pended to remove missile defense equipment of the United
States from East Asia until a period of 180 days has
elapsed following the date on which the President certifies
to the congressional defense committees the following:

(1) Each country in East Asia that poses a
threat to allies of the United States has verifiably
dismantled the nuclear weapons and ballistic missile
programs of such country.

(2) The President has consulted with such allies
with respect to the dismantlement described in para-
graph (1) that—

(A) such dismantlement has occurred; and
(B) the missile defense platforms of the United States located in East Asia are no longer needed.

(c) WAIVER.—The President may waive the limitation in subsection (b) with respect to removing missile defense equipment of the United States from East Asia if—

(1) the President submits to the congressional defense committees—

(A) a certification that such waiver is in the national security interest of the United States; and

(B) a report, in unclassified form, explaining—

(i) why the President cannot make a certification for such removal under subsection (b);

(ii) the national security interest covered by the certification made under subparagraph (A); and

(iii) how the President will provide a commensurate level of defense for the United States, allies of the United States, and deployed forces of the United States, as provided by such missile defense equipment being removed; and
(2) a period of 30 days has elapsed following the date on which the President submits the information under paragraph (1).

(d) EXCEPTION.—The limitation in subsection (b) shall not apply to destroyers and cruisers of the Navy equipped with the Aegis ballistic missile defense system.

SEC. 234. IMPROVEMENTS TO ACQUISITION ACCOUNTABILITY REPORTS ON BALLISTIC MISSILE DEFENSE SYSTEM.

(a) IN GENERAL.—Section 225 of title 10, United States Code, is amended—

(1) in subsection (b)(3)(A), by inserting “comprehensive” before “life-cycle”; and

(2) by adding at the end the following:

“(e) QUALITY OF COST ESTIMATES.—(1) The Director shall ensure that each cost estimate included in an acquisition baseline pursuant to subsection (b)(3) includes all operation and support costs, regardless of funding source, for which the Director is responsible.

“(2) In each such baseline submitted to the congressional defense committees, the Director shall state whether the underlying cost estimates in such baseline meet the criteria of the Comptroller General of the United States to be considered a high-quality estimate. If the Director states that such estimates do not meet such criteria, the
Director shall include in such baseline the actions, including a schedule, that the Director plans to carry out for the estimates to meet such criteria.”.

(b) REPORT.—Not later than February 15, 2014, the Director of the Missile Defense Agency shall submit to the congressional defense committees a report of the plans and schedule of the Director with respect to when the Director will meet the quality and criteria of cost estimates required by section 225(e) of title 10, United States Code, as added by subsection (a)(2).

SEC. 235. ANALYSIS OF ALTERNATIVES FOR SUCCESSOR TO PRECISION TRACKING SPACE SYSTEM.

(a) ANALYSIS OF ALTERNATIVES REQUIRED.—

(1) IN GENERAL.—The Director of the Missile Defense Agency, in cooperation with the Director of Cost Assessment and Program Evaluation and the Defense Space Council, shall perform an analysis of alternatives for a successor to the precision tracking space system.

(2) CONSIDERATION.—The Director shall ensure that the analysis of alternatives under paragraph (1) considers the following:

(A) Current and future terrestrial, airborne, and space capabilities and capability gaps for missile defense sensing requirements.
(B) Current and planned overhead persistent infrared architecture and the potential for the future exploitability of such architecture.

(C) Lessons learned from the space tracking and surveillance system and precision tracking space system technology development programs.

(D) Opinions of private industry based on the experience of such industry with delivering space capabilities.

(E) Opportunities for such successor system to contribute to nonmissile defense missions with unmet requirements, including space situational awareness.

(3) ROLE OF OTHER DEPARTMENTS.—In conducting the analysis of alternatives under paragraph (1), the Director shall compare the advantages and disadvantages, including in terms of costs, with respect to the Director—

(A) developing a successor to the precision tracking space system solely for the Missile Defense Agency; and

(B) cooperating with other heads of departments and agencies of the United States to
develop space systems that are multi-mission, including by hosting payloads.

(b) Submission Required.—

(1) Terms of Reference.—Not later than 60 days after the date of the enactment of this Act, the Director shall submit to the congressional defense committees the terms of reference of the analysis of alternatives performed under subsection (a)(1).

(2) In General.—Not later than 180 days after the date of the enactment of this Act, the Director shall submit to the congressional defense committees a report including—

(A) the analysis of alternatives for a successor to the precision tracking space system performed under subsection (a)(1); and

(B) a description of the potential platforms on which a hosted payload could be hosted.

(3) Form.—The report required by paragraph (2) shall be submitted in unclassified form, but may include a classified annex.

(c) Conforming Repeal.—Section 224 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112–239; 126 Stat. 1675) is repealed.
SEC. 236. PLAN TO IMPROVE ORGANIC KILL ASSESSMENT CAPABILITY OF THE GROUND-BASED MID-COURSE DEFENSE SYSTEM.

(a) ORGANIC KILL ASSESSMENT CAPABILITY.—The Director of the Missile Defense Agency and the Commander of the United States Northern Command, in consultation with the Commander of the United States Strategic Command, shall jointly develop—

(1) options to achieve an organic kill assessment capability for the ground-based midcourse defense system that can be developed by not later than December 31, 2019, including by improving the command, control, battle management, and communications program and the sensor and communications architecture of the Agency; and

(2) a plan to carry out such options that gives priority to including such capabilities in at least some of the 14 ground-based interceptors that will be procured by the Director, as announced by the Secretary of Defense on March 15, 2013.

(b) IMPROVED HIT ASSESSMENT.—The Director and the Commander of the United States Northern Command, in consultation with the Commander of the United States Strategic Command, shall jointly develop an interim capability for improved hit assessment for the ground-based midcourse defense system that can be integrated into
near-term enhanced kill vehicle upgrades and refurbishment.

(c) Submission to Congress.—Not later than March 15, 2014, the Director and the Commander of the United States Northern Command shall jointly submit to the congressional defense committees a report on—

(1) the development of an organic kill assessment capability under subsection (a), including the plan developed under paragraph (2) of such subsection; and

(2) the development of an interim capability for improved hit assessment under subsection (b).

SEC. 237. AVAILABILITY OF FUNDS FOR IRON DOME SHORT-RANGE ROCKET DEFENSE PROGRAM.

Of the funds authorized to be appropriated for fiscal year 2014 by section 201 for research, development, test, and evaluation, Defense-wide, and available for the Missile Defense Agency, $15,000,000 may be obligated or expended for enhancing the capability for producing the Iron Dome short-range rocket defense program in the United States, including for infrastructure, tooling, transferring data, special test equipment, and related components.

SEC. 238. NATO AND THE PHASED, ADAPTIVE APPROACH TO MISSILE DEFENSE IN EUROPE.

(a) NATO Funding.—
(1) Phase I of EPAA.—Not later than 60 days after the date of the enactment of this Act, the President shall consult with the North Atlantic Council and the Secretary General of the North Atlantic Treaty Organization (in this section referred to as “NATO”) on—

(A) the funding of the phased, adaptive approach to missile defense in Europe; and

(B) establishing a plan for NATO to provide at least 50 percent of the infrastructure and operations and maintenance costs of phase I of the phased, adaptive approach to missile defense in Europe.

(2) Phases II and III of EPAA.—The President shall use the NATO Military Common-Funded Resources process to seek to fund at least 50 percent of the costs for phases II and III of the phased, adaptive approach to missile defense in Europe.

(3) Reports.—Not later than 180 days after the date of the enactment of this Act, and each 180-day period thereafter, the President shall submit to the congressional defense committees, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Sen-
ate a report on the funding provided by NATO pursuant to paragraphs (1) and (2).

(b) INTERCEPTORS.—If the Secretary of Defense determines that it is useful to the interests of the United States, the Secretary shall seek to engage with members of NATO to establish a NATO common pool of Aegis standard missile–3 block IA, standard missile–3 block IB, and standard missile–3 block IIA interceptors to defend NATO members through the phased, adaptive approach to missile defense in Europe.

SEC. 239. SENSE OF CONGRESS ON PROCUREMENT OF CAPABILITY ENHANCEMENT II EXOATMOSPHERIC KILL VEHICLE.

It is the sense of Congress that the Secretary of Defense should not procure a Capability Enhancement II exoatmospheric kill vehicle for deployment until after the date on which a successful operational flight test of the Capability Enhancement II ground-based interceptor has occurred unless such procurement is for test assets or to maintain a warm line for the industrial base.

SEC. 240. SENSE OF CONGRESS ON 30TH ANNIVERSARY OF THE STRATEGIC DEFENSE INITIATIVE.

(a) FINDINGS.—Congress finds the following:

(1) President Ronald Reagan in March 1983, in a speech from the oval office, laid the corner stone
for a long-term research and development program
to begin to achieve our ultimate goal of eliminating
the threat posed by strategic nuclear missiles.

(2) President Reagan stated, “I’ve become more
and more deeply convinced that the human spirit
must be capable of rising above dealing with other
nations and human beings by threatening their ex-
istence * * * What if free people could live secure
in the knowledge that their security did not rest
upon the threat of instant United States retaliation
to deter a Soviet attack, that we could intercept and
destroy strategic ballistic missiles before they
reached our own soil or that of our allies?”.

(3) The Strategic Defense Initiative, also
known as “Star Wars”, challenged the nation to ac-
complish the impossible by moving beyond the obvi-
ous possibilities of the day to set the United States
and our allies up for success.

(4) In 1999, the Ballistic Missile Defense Orga-
nization (BMDO), National Missile Defense (NMD)
prototype interceptor successfully demonstrated “hit-
to-kill” technology intercepting a modified Minute-
man intercontinental Ballistic Missile (ICBM).

(5) Congress passed the National Missile De-
fense Act of 1999 (Public Law 106–38) (signed by
President Clinton), which stated, “It is the policy of the United States to deploy, as soon as is technologically possible, an effective National Missile Defense system capable of defending the territory of the United States against limited ballistic missile attack (whether accidental, unauthorized, or deliberate).”

(6) On December 13, 2001, President George W. Bush announced “I have concluded the ABM treaty hinders our government’s ability to develop ways to protect our people from future terrorist or rogue state missile attacks”.

(7) Russian President Vladimir Putin said the move was “not a threat to the security of the Russian Federation”.

(8) Since 2001, the United States has deployed considerable Missile Defense capability: 30 ground-based interceptors defending the continental U.S. today; 32 Aegis BMD ships; 113 SM–3 IA interceptors; 25 SM–3 IB interceptors; 3 THAAD batteries and 89 interceptors; and 89 AN/TPY–2 forward-based sensors.

(9) The United States has partnerships with 22 nations, and the North Atlantic Treaty Organization (NATO), for missile defense cooperation. Likewise,
India and South Korea are developing missile defenses and the Russian Federation and People’s Republic of China are also developing and improving missile defenses.

(10) Since 2001 when they began development, United States missile defenses have had a test record of 58 of 73 hit-to-kill intercept attempts and have been successful across all programs of the integrated system, including Aegis Ballistic Missile Defense (BMD), Ground-based Midcourse Defense (GMD), Terminal High Altitude Area Defense (THAAD), and PATRIOT Advanced Capability–3.

(11) In July of 2004, the United States missile defense system was declared operational with limited capability. Since that time, it has offered defense against limited threats to the continental United States.

(12) The United States has cooperatively developed with our Israeli allies a number of missile defense systems including Arrow, Arrow 3 and David’s Sling, systems which will protector our Israeli allies and contribute technology and expertise to United States systems.

(13) The United States in support of NATO deployed a Patriot missile battery to defend the pop-
ulation and territory of Turkey and provide material support for Article V of the North Atlantic Treaty in the event of spillover from the Syrian civil war and has deployed Phase I of the European Phased Adaptive Approach, which includes a transportable x-band radar array and an on-station AEGIS ballistic missile defense ship armed with Standard Missile 3 block IA missile interceptors.

(14) When United States territory, deployed forces and allies were threatened by North Korean ballistic missiles the United States had the operational capability and national will to deploy THAAD units to Guam to provide a defensive shield.

(15) The United States continues to work jointly with Japan to improve the Navy Aegis Ballistic Missile Defense (BMD) which in addition to providing missile defense in the Pacific is also a keystone in the Phased Adaptive Approach for European missile defense.

(16) On-going research and development under the auspices of the Missile Defense Agency will continue to expand the technology envelope to deploy a layered missile defense system capable of defending the homeland, our military forces deployed overseas,
friendly nations and our allies against all ballistic
missiles from launch and orbit to reentry.

(17) A credible ballistic missile defense system
is critical to the national defense of the United
States.

(b) SENSE OF CONGRESS.—Congress—

(1) recognizes the inspiring leadership of Presi-
dent Ronald Reagan to “maintain the peace through
strength”; 

(2) recognizes the enduring obligation President
as Commander in Chief to“ preserve, protect, and
defend the Constitution”; 

(3) commemorates the vision of President
Reagan on the 30th anniversary of the Strategic De-
fense Initiative;

(4) believes that it is imperative that the United
States continue fielding a robust missile defense sys-
tem, including additional ground based interceptors;
and

(5) commits to supporting continued invest-
ments in future missile defense capabilities and
emerging technologies such as directed energy and
railguns.
SEC. 241. READINESS OF INTERCONTINENTAL BALLISTIC MISSILE FORCE.

The Secretary of Defense shall preserve each intercontinental ballistic missile silo that contains a deployed missile as of the date of the enactment of this Act in, at minimum, a warm status that enables such silo to—

(1) remain a fully functioning element of the interconnected and redundant command and control system of the missile field; and

(2) be made fully operational with a deployed missile.

SEC. 242. SENSE OF CONGRESS ON NEGOTIATIONS AFFECTING THE MISSILE DEFENSES OF THE UNITED STATES.

(a) FINDINGS.—Congress finds the following:

(1) On April 15, 2013, the National Security Advisor to the President, Tom Donilon, conveyed a personal letter from President Obama to the President of the Russian Federation, Vladimir Putin.

(2) Press reports indicate that in this letter the President proposed, “developing a legally-binding agreement on transparency, which would include exchange of information to confirm that our programs do not pose a threat to each other’s deterrence forces,” through “a so-called executive agreement,
for which [the President] does not need to seek the
consent of Congress.”.

(3) The Deputy Foreign Minister of Russia,
Sergei Ryabkov, stated in response to the letter that,
“the proposals of the U.S. side on the issue are
quite concrete and are related in a certain way to
the discussions our countries had at various levels in
the past years. And it cannot be said from this point
of view that the offers are decorative and not seri-
ous. No, I want to emphasize that we are commit-
ting to the seriousness of these proposals but we
note their insufficiency.”.

(4) Press reports indicate that the Secretary of
the Russian Security Council, Nikolai Patrushev,
conveyed a response to the letter from President
Putin.

(5) President Obama’s proposed deal with Rus-

ian President Putin has been kept secret from Con-
gress and the American people.

(6) The Administration has systematically de-
nied Congress information about past offers of
United States missile defense concessions to Russia,
including written requests from Members of the
House of Representatives.
(b) Sense of Congress.—It is the sense of Congress that—

(1) the President should promptly convey to Congress the details of any proposed deals with the Russian Federation concerning the missile defenses or nuclear arms of the United States; and

(2) the missile defenses of the United States are central to the defense of the homeland from ballistic missile threats, particularly if nuclear deterrence fails, thus such defenses are not something that the President should continue to trade away for the prospects of nuclear arms reductions with Russia, the People’s Republic of China, or any other foreign country.

enhanced night vision goggles, with the powered rail
technology, and the connection of these previously
unconnected devices to the soldier network.

produce the report required by subsection (a) shall be su-
pervised and validated by the Director of Operational Test
and Evaluation of the Department of Defense.

technology, engineer, and mathematics to meet the rec-
ommendations contained in the report of the Commission
on Research and Development in the United States Intel-
ligence Community, as well as recommendation for how
SMART and similar program might be improved to better
satisfy those recommendations.

SEC. 555. TRANSITION OF MEMBERS OF THE ARMED
FORCES AND THEIR FAMILIES FROM MILI-
TARY TO CIVILIAN LIFE.

(a) FINDINGS.—The Congress finds the following:

(1) Members of the Armed Forces and their families make great sacrifices on behalf of the United States, and, when their active duty service is successfully concluded, members deserve the opportunity to also make a successful transition to the civilian labor force.

(2) When transitioning from active duty in the Armed Forces to civilian employment, members often face barriers that make it difficult to fully utilize the skills and training they gained during their military service.

(3) Members and veterans are too often required to repeat education or training in order to receive industry certifications and State occupational licenses, even though their military training and experience often overlaps with the certification or licensing requirements.

(4) When members are transferred from military assignment to military assignment, their
spouses often face barriers to transferring their credentials and to securing employment in their new location.

(5) More than one million members will make the transition to civilian life in the coming years.

(6) The Department of Defense established the Military Credentialing and Licensing Task Force in 2012.

(7) The Joining Forces program, a national initiative to mobilize all sectors of society to give members of the Armed Forces and their families the opportunities and support they have earned, will make it easier for members and their families to transfer skills learned while the member was serving in the Armed Forces to civilian employment.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Federal Government and State governments should make the transition of a member of the Armed Forces and the member’s spouse from military to civilian life as seamless as possible by creating opportunities for the member and spouse to earn, while the member is in the Armed Forces, civilian occupational credentials and licenses, with an emphasis on well-paying industries and occupations
that have a high demand for skilled workers, including: manufacturing, information technology, transportation and logistics, health care, and emergency medical services;

(2) the Federal Government should assist State governments in translating military training and experience into credit towards professional licensure; and

(3) State governments should streamline approaches for assessing the equivalency of military training and experience, and accelerate occupational licensing processes for members, veterans, and their spouses.

SEC. 598. SENSE OF CONGRESS REGARDING THE RECOVERY OF THE REMAINS OF CERTAIN MEMBERS OF THE ARMED FORCES KILLED IN THURSTON ISLAND, ANTARCTICA.

(a) FINDINGS.—Congress makes the following findings:
(1) Commencing August 26, 1946, though late February 1947 the United States Navy Antarctic Developments Program Task Force 68, codenamed “Operation Highjump” initiated and undertook the largest ever-to-this-date exploration of the Antarctic continent.

(2) The primary mission of the Task Force 68 organized by Rear Admiral Richard E. Byrd Jr. USN, (Ret) and led by Rear Admiral Richard H. Cruzen, USN, was to do the following:

(A) Establish the Antarctic research base Little America IV.

(B) In the defense of the United States of America from possible hostile aggression from abroad—to train personnel test equipment, develop techniques for establishing, maintaining and utilizing air bases on ice, with applicability comparable to interior Greenland, where conditions are similar to those of the Antarctic.

(C) Map and photograph a full two-thirds of the Antarctic Continent during the classified, hazardous duty/volunteer-only operation involving 4700 sailors, 23 aircraft and 13 ships including the first submarine the U.S.S. Sennet, and the aircraft carrier the U.S.S. Philippine
Sea, brought to the edge of the ice pack to launch (6) Navy ski-equipped, rocket-assisted R4Ds.

(D) Consolidate and extend United States sovereignty over the largest practicable area of the Antarctic continent.

(E) Determine the feasibility of establishing, maintaining and utilizing bases in the Antarctic and investigating possible base sites.

(3) While on a hazardous duty/all volunteer mission vital to the interests of National Security and while over the eastern Antarctica coastline known as the Phantom Coast, the PBM–5 Martin Mariner “Flying Boat” “George 1” entered a whiteout over Thurston Island. As the pilot attempted to climb, the aircraft grazed the glacier’s ridgeline and exploded within 5 seconds instantly killing Ensign Maxwell Lopez, Navigator and Wendell “Bud” Hendersin, Aviation Machinists Mate 1st Class while Frederick Williams, Aviation Radioman 1st Class died several hours later. Six other crewmen survived including the Captain of the “George 1’s” seaplane tender U.S.S. Pine Island.

(4) The bodies of the dead were protected from the desecration of Antarctic scavenging birds
(Skuas) by the surviving crew wrapping the bodies and temporarily burying the men under the starboard wing engine nacelle.

(5) Rescue requirements of the “George–1” survivors forced the abandonment of their crewmates’ bodies.

(6) Conditions prior to the departure of Task Force 68 precluded a return to the area to recover the bodies.

(7) For nearly 60 years Navy promised the families that they would recover the men: “If the safety, logistical, and operational prerequisites allow a mission in the future, every effort will be made to bring our sailors home.”.

(8) The Joint POW/MIA Accounting Command twice offered to recover the bodies of this crew for Navy.

(9) A 2004 NASA ground penetrating radar overflight commissioned by Navy relocated the crash site three miles from its crash position.

(10) The Joint POW/MIA Accounting Command offered to underwrite the cost of an aerial ground penetrating radar (GPR) survey of the crash site area by NASA.
(11) The Joint POW/MIA Accounting Command studied the recovery with the recognized recovery authorities and national scientists and determined that the recovery is only “medium risk”.

(12) National Science Foundation and scientists from the University of Texas, Austin, regularly visit the island.

(13) The crash site is classified as a “perishable site”, meaning a glacier that will calve into the Bellingshausen Sea.

(14) The National Science Foundation maintains a presence in area—of the Pine Island Glacier.

(15) The National Science Foundation Director of Polar Operations will assist and provide assets for the recovery upon the request of Congress.

(16) The United States Coast Guard is presently pursuing the recovery of 3 WWII air crewmen from similar circumstances in Greenland.

(17) On Memorial Day, May 25, 2009, President Barack Obama declared: “...the support of our veterans is a sacred trust...we need to serve them as they have served us...that means bringing home all our POWs and MIAs...”.
(18) The policies and laws of the United States of America require that our armed service personnel be repatriated.

(19) The fullest possible accounting of United States fallen military personnel means repatriating living American POWs and MIAs, accounting for, identifying, and recovering the remains of military personnel who were killed in the line of duty, or providing convincing evidence as to why such a repatriation, accounting, identification, or recovery is not possible.

(20) It is the responsibility of the Federal Government to return to the United States for proper burial and respect all members of the Armed Forces killed in the line of duty who lie in lost graves.

(b) SENSE OF CONGRESS.—In light of the findings under subsection (a), Congress—

(1) reaffirms its support for the recovery and return to the United States, the remains and bodies of all members of the Armed Forces killed in the line of duty, and for the efforts by the Joint POW-MIA Accounting Command to recover the remains of members of the Armed Forces from all wars, conflicts and missions;
(2) recognizes the courage and sacrifice of all members of the Armed Forces who participated in Operation Highjump and all missions vital to the national security of the United States of America;

(3) acknowledges the dedicated research and efforts by the US Geological Survey, the National Science Foundation, the Joint POW/MIA Accounting Command, the Fallen American Veterans Foundation and all persons and organizations to identify, locate, and advocate for, from their temporary Antarctic grave, the recovery of the well-preserved frozen bodies of Ensign Maxwell Lopez, Naval Aviator, Frederick Williams, Aviation Machinist’s Mate 1ST Class, Wendell Hendersin, Aviation Radioman 1ST Class of the “George 1” explosion and crash; and

(4) encourages the Department of Defense to review the facts, research and to pursue new efforts to undertake all feasible efforts to recover, identify, and return the well-preserved frozen bodies of the “George 1” crew from Antarctica’s Thurston Island.

(1) The battle force of the Navy must be sufficiently sized and balanced in capability to meet current and anticipated future national security objectives.

(B) surface combatants;

(C) submarines;

(D) amphibious assault ships; and

(4) Despite a Marine Corps requirement for 38 amphibious assault ships, the Navy possesses only 30 amphibious assault ships with an average of 22 ships available for surge deployment.

   (A) a fragile shipbuilding industrial base, both in the construction yards and secondary suppliers of materiel and equipment; and
   (B) increased costs per vessel stemming from low production volume.

(6) The Department of Defense, Military Construction and Veterans Affairs, and Full-Year Continuing Appropriations Act for Fiscal Year 2013 provided $263,000,000 towards the advance procurement of materiel and equipment required to continue the San Antonio LPD 17 amphibious transport dock class to a total of 12 ships, a key first step in rebalancing the amphibious assault ship force structure.

and reflect the true investment necessary to meet stated force structure goals;

(3) without modification to Long Range Plan for the Construction of Naval Forces shipbuilding plan, the future of the industrial base that enables construction of large, combat-survivable amphibious assault ships is at significant risk; and

(4) the Department of Defense and Congress should act expeditiously to restore the force structure and capability balance of the Navy fleet as quickly as possible.

SEC. 1054. STATEMENT OF POLICY ON IMPLEMENTATION OF ANY AGREEMENT FOR FURTHER ARMS REDUCTION BELOW THE LEVELS OF THE NEW START TREATY; LIMITATION ON RETIREMENT OR DISMANTLEMENT OF STRATEGIC DELIVERY SYSTEMS.

(a) Finding; Statement of Policy.—

(1) Finding.—Congress finds that it was the Declaration of the United States Senate in its Resolution of Advice and Consent to the New START Treaty that “[t]he Senate declares that further arms reduction agreements obligating the United States to reduce or limit the Armed Forces or armaments of the United States in any militarily significant manner may be made only pursuant to the treaty-making power of the President as set forth in Article II, section 2, clause 2 of the Constitution of the United States”.

(C) such waiver is required during such fiscal year to implement such treaty or agreement.

(1) CERTAIN COMPLIANCE OF NUCLEAR ARMS CONTROL AGREEMENTS.—If the President makes a waiver under subsection (b)(2), none of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2014 or any fiscal year thereafter for the Department of Defense may be obligated or expended to retire, dismantle, or deactivate, or prepare to retire, dismantle, or deactivate, any covered strategic delivery vehicle until 30 days elapses following the date on which the President submits to the appropriate congressional committees and the congressional intelligence committees written certification that the Russian Federation is in compliance with its nuclear arms control agreements and obligations with the United States.
(2) CERTAIN INTELLIGENCE.—If the President makes a waiver under subsection (b)(2), none of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2014 or any fiscal year thereafter for the Department of Defense may be obligated or expended to retire, dismantle, or deactivate, or prepare to retire, dismantle, or deactivate, any covered strategic delivery vehicle in accordance with a treaty or international agreement entered into pursuant to an Act of Congress requiring such actions unless the President submits to the appropriate congressional committees and the congressional intelligence committees written certification that the intelligence community has high confidence judgments with respect to—

SEC. 1055. SENSE OF CONGRESS ON COMPLIANCE WITH NUCLEAR ARMS CONTROL AGREEMENTS.

(a) FINDINGS.—Congress finds the following:

(1) President Obama stated in Prague in April 2009 that “Rules must be binding. Violations must be punished. Words must mean something.”.

(2) President Obama’s Nuclear Posture Review of 2010 stated, “it is not enough to detect non-compliance; violators must know that they will face consequences when they are caught.”.

(3) The July 2010 Verifiability Assessment released by the Department of State on the New START Treaty stated, “The costs and risks of Russian cheating or breakout, on the other hand, would likely be very significant. In addition to the financial and international political costs of such an action, any Russian leader considering cheating or breakout from the New START Treaty would have to consider that the United States will retain the ability to
upload large numbers of additional nuclear warheads
on both bombers and missiles under the New
START, which would provide the ability for a timely
and very significant U.S. response.”.

(4) Subsection (a) of the Resolution of Advice
and Consent to Ratification of the New START
Treaty of the Senate, agreed to on December 22,
2010, listed conditions of the Senate to the ratifica-
tion of the New START Treaty that are binding
upon the President, including the condition under
paragraph (1)(B) of such subsection that requires
the President to take certain actions in response to
actions by the Russian Federation that are in viola-
tion of or inconsistent with such treaty, including to
“seek on an urgent basis a meeting with the Russian
Federation at the highest diplomatic level with the
objective of bringing the Russian Federation into
full compliance with its obligations under the New
START Treaty”.

(5) The Obama Administration demonstrated
that violations of treaty obligations by other parties
require corresponding action by the United States
when, on November 22, 2011, the Department of
State announced that the United States would
“cease carrying out certain obligations under the
Conventional Armed Forces in Europe (CFE) Treaty with regard to Russia. This announcement in the CFE Treaty’s implementation group comes after the United States and NATO Allies have tried over the past 4 years to find a diplomatic solution following Russia’s decision in 2007 to cease implementation with respect to all other 29 CFE States. Since then, Russia has refused to accept inspections and ceased to provide information to other CFE Treaty parties on its military forces as required by the Treaty.”.

(6) On October 17, 2012, the Chairman of the Committee on Armed Services of the House of Representatives and the Chairman of the Permanent Select Committee on Intelligence of the House of Representatives wrote a classified letter to the President stating their concerns about a major arms control violation by the Russian Federation.

(7) The Chairmen followed up their classified letter with unclassified letters on February 14 and April 12, 2013—in their latest letter, the Chairmen stated that they expect the Administration to “directly confront the Russian violations and circumventions of this and other treaties. . .[we] further ask, again, for your engagement in correcting this behavior. We also seek your commitment not to
undertake further reductions to the U.S. nuclear de-
terrent or extended deterrent until this Russian be-
havior is corrected. We are in full agreement with
your policy as you articulated it in Prague four
years ago this month, ‘rules must be binding, Viol-
tions must be punished. Words must mean some-
thing.’”.

(b) Sense of Congress.—It is the sense of Con-
gress that the President should consider not seeking to
further limit or reduce the nuclear forces of the United
States, including by negotiation, with a foreign country
that remains in active noncompliance with existing nuclear
arms obligations, such as the Russian Federation.

(c) Obligations of the President in the Event
of Noncompliance.—If the President determines that
a foreign country is not in compliance with its obligations
under a nuclear arms control agreement, treaty, or com-
mitment to which the United States is a party or in which
the United States is a participating government, including
the Missile Technology Control Regime, the President
shall—

(1) immediately consult with Congress regarding
the implications of such noncompliance for—

(A) the viability of such agreement, treaty,
or commitment; and
(B) the national security interests of the
United States and the allies of the United
States;
(2) submit to Congress a plan concerning the
diplomatic strategy of the President to engage such
foreign country at the highest diplomatic level with
the objective of bringing such country into full com-
pliance with such obligations; and
(3) at the earliest date practicable following the
submission of the plan under paragraph (2), submit
to Congress a report detailing—
(A) whether adherence by the United
States to such obligation remains in the na-
tional security interests of the United States or
the allies of the United States; and
(B) how the United States will redress the
effect of such noncompliance to the national se-
curity interests of the United States or such al-
lies.

SEC. 1056. RETENTION OF CAPABILITY TO REDEPLOY MUL-
TIPLE INDEPENDENTLY TARGETABLE RE-

(1) deploying multiple independently targetable reentry vehicles to Minuteman III intercontinental ballistic missiles, and any ground-based strategic deterrent follow-on to such missiles; and

(2) commencing such deployment not later than 270 days after the date on which the President determines such deployment necessary.

(b) WARHEAD CAPABILITY.—The Nuclear Weapons Council established by section 179 of title 10, United States Code, shall ensure that—

(2) such deployment is capable of being commenced not later than 270 days after the date on which the President determines such deployment necessary.

Section 1045(b) of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112–239; 126 Stat. 1933) is amended—

(1) in paragraph (4), by striking “August 15, 2013” and inserting “August 15, 2014”; and

(2) by adding at the end the following new paragraph:

“(5) LIMITATION.—Of the funds authorized to be appropriated by the National Defense Authorization Act for Fiscal Year 2014 or otherwise made available for fiscal year 2014 for the Office of the Secretary of Defense for travel, not more than 75 percent may be obligated or expended until a period of 30 days has elapsed following the date on which the Secretary of Defense notifies the appropriate congressional committees that the Secretary has entered into an agreement under paragraph (1) with a federally funded research and development center.”.

SEC. 1095. SENSE OF CONGRESS ON IMPROVISED EXPLOSIVE DEVICES.

It is the sense of Congress that—

(1) the use of improvised explosive devices (in this section referred to as “IEDs”) against members of the Armed Forces or people of the United States should be condemned;

(2) unwavering support for members of the Armed Forces, first responders, and explosive ordnance disposal personnel of the United States who face the threat of IEDs and put their lives on the line to defeat them should be expressed;

(3) all relevant agencies of the Government should be called on to coordinate with international
partners and other responsible entities to reduce the
use of IEDs and curb their proliferation; and

(4) the exchange of blast trauma research data
should be facilitated between all relevant agencies of
the Government.

SEC. 1096. SENSE OF CONGRESS TO MAINTAIN A STRONG
NATIONAL GUARD AND MILITARY RESERVE
FORCE.

(a) FINDINGS.—Congress finds the following:

(1) The first volunteer militia unit in America
was formed in 1636 in Massachusetts Bay, followed
by other units in the colonies of Virginia and Con-
necticut. the American founding fathers wrote article
I, section 8, of the United States Constitution to
keep the militia model, authorizing a standing mili-
tary force that could organize, train, and equip mili-
tia volunteers when needed.

(2) In World War I, nearly all National
Guardsmen were mobilized into Federal service, and
while they represented only 15 percent of the total
United States Army, they comprised 40 percent of
the American divisions sent to France and sustained
43 percent of the casualties in combat. In World
War II, the National Guard comprised 19 Army di-
visions and 29 observation squadrons with aircraft assigned to the United States Army Air Forces.

(3) On September 11, 2001, the first fighter jets over New York City and Washington, DC, were Air National Guard F–15 and F–16 aircraft from Massachusetts and North Dakota, with over 400 more Air National Guard fighter aircraft on alert by that afternoon. Over 600,000 Air and Army National Guard soldiers and airmen have deployed in the many campaigns since 9/11.

(4) Air and Army National Guard soldiers and airmen have been involved in countless domestic response missions, including missions in response to hurricanes, tornadoes, floods, and forest fires including the more recent events of Superstorm Sandy and the tornados in Oklahoma.

(5) The volunteer National Guard and Reserve have time and again demonstrated their readiness to meet operational requirements through cost-effective means.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Secretary of Defense should make every effort to ensure the Military Reserve and National Guard forces are sustained by a fully manned and
fully funded force and that the United States fulfill its longstanding commitment to unyielding readiness in terms of defense;

(2) the Secretary of Defense should act with the knowledge that the National Guard and Reserve are critical components to the Armed Forces, particularly as means of preserving combat power during a time of budget austerity; and

(3) Congress repudiates proposals to diminish the National Guard or Reserve and affirms the growth of these components as circumstances warrant.

SEC. 1097. ACCESS OF EMPLOYEES OF CONGRESSIONAL SUPPORT OFFICES TO DEPARTMENT OF DEFENSE FACILITIES.

(a) FINDING.—Congress finds that Congressional support offices perform a critical role in enabling Congress to carry out its Constitutionally-mandated task of performing oversight of the executive branch.

(b) ACCESS IN SAME MANNER AS EMPLOYEES OF DEFENSE COMMITTEES.—The Secretary of Defense shall provide employees of any Congressional support office who work on issues related to national security with access to facilities of the Department of Defense in the same manner, and subject to the same terms and conditions, as em-
ployees of the Committees on Armed Services of the House
of Representatives and Senate.

(c) CONGRESSIONAL SUPPORT OFFICES DEFINED.—
In this section, the term “Congressional support office”
means any of the following:

(1) The Congressional Budget Office.

(2) The Congressional Research Service of the
Library of Congress.

SEC. 1098. COST OF WARS.

The Secretary of Defense, in consultation with the
Commissioner of the Internal Revenue Service and the Di-
rector of the Bureau of Economic Analysis, shall post on
the public Web site of the Department of Defense the
costs, including the relevant legacy costs, to each Amer-
ican taxpayer of each of the wars in Afghanistan and Iraq.

SEC. 1099. SENSE OF CONGRESS REGARDING CONSIDER-
ATION OF FOREIGN LANGUAGES AND CUL-
TURES IN THE BUILDING OF PARTNER CA-
PACITY.

It is the sense of Congress that the head of each ele-
ment of the Department of Defense should take into con-
sideration foreign languages and cultures during the devel-
opment by such element of the Department of training,
tools, and methodologies to engage in military-to-military
activities and in the building of partner capacity.

SEC. 1099A. SENSE OF CONGRESS REGARDING PRESERVA-
TION OF SECOND AMENDMENT RIGHTS OF
ACTIVE DUTY MILITARY PERSONNEL STA-
TIONED OR RESIDING IN THE DISTRICT OF
COLUMBIA.

(a) FINDINGS.—Congress finds the following:

(1) The Second Amendment to the United
States Constitution provides that the right of the
people to keep and bear arms shall not be infringed.

(2) Approximately 40,000 servicemen and
women across all branches of the Armed Forces ei-
ther live in or are stationed on active duty within the
Washington, D.C., metropolitan area. Unless these
individuals are granted a waiver as serving in a law
enforcement role, they are subject to the District of
Columbia’s onerous and highly restrictive laws on
the possession of firearms.

(3) Military personnel, despite being extensively
trained in the proper and safe use of firearms, are
therefore deprived by the laws of the District of Co-
rumnia of handguns, rifles, and shotguns that are
commonly kept by law-abiding persons throughout
the United States for sporting use and for lawful de-
defense of their persons, homes, businesses, and families.

(4) The District of Columbia has one of the highest per capita murder rates in the Nation, which may be attributed in part to previous local laws prohibiting possession of firearms by law-abiding persons who would have otherwise been able to defend themselves and their loved ones in their own homes and businesses.

(5) The Gun Control Act of 1968 (as amended by the Firearms Owners’ Protection Act) and the Brady Handgun Violence Prevention Act provide comprehensive Federal regulations applicable in the District of Columbia as elsewhere. In addition, existing District of Columbia criminal laws punish possession and illegal use of firearms by violent criminals and felons. Consequently, there is no need for local laws that only affect and disarm law-abiding citizens.

(6) On June 26, 2008, the Supreme Court of the United States in the case of District of Columbia v. Heller held that the Second Amendment protects an individual’s right to possess a firearm for traditionally lawful purposes, and thus ruled that the District of Columbia’s handgun ban and require-
ments that rifles and shotguns in the home be kept unloaded and disassembled or outfitted with a trigger lock to be unconstitutional.

(7) On July 16, 2008, the District of Columbia enacted the Firearms Control Emergency Amendment Act of 2008 (D.C. Act 17–422; 55 DCR 8237), which places onerous restrictions on the ability of law-abiding citizens from possessing firearms, thus violating the spirit by which the Supreme Court of the United States ruled in District of Columbia v. Heller.

(b) Sense of Congress.—It is the sense of Congress that active duty military personnel who are stationed or residing in the District of Columbia should be permitted to exercise fully their rights under the Second Amendment to the Constitution of the United States and therefore should be exempt from the District of Columbia’s restrictions on the possession of firearms.

SEC. 1220. SENSE OF CONGRESS.

(a) PURPOSE.—Expressing the Sense of the House or Representatives that the Special Immigration Visa programs authorized in the National Defense Authorization Act for Fiscal Year 2008 and the Afghan Allies Protection Act of 2009 are critical to the United States national security, and that these programs must be reformed and extended in order to meet the Congressional intent with which they were created.

(b) FINDINGS.—Congress finds the following:

(1) Congress created the Special Immigration Visa program for the purposes of protecting and aiding the many brave Iraqis and Afghans whose lives, and the lives of their families, were endangered as a result of their faithful and valuable service to the United States during Operations Enduring Freedom and Iraqi Freedom.
(2) The Iraq Special Immigrant Visa program is set to expire at the end of fiscal year 2013.

(3) The Afghanistan Special Immigrant Visa program is set to expire at the end of fiscal year 2014.

(4) Despite the pending expiration of the Special Immigrant Visa programs, many brave Iraqis, Afghans, and their families, continue to face ongoing and serious threats as a result of their employment by or on behalf of the United States Government.

(5) Between FY08–FY12, only 22 percent of the available Iraqi SIVs (5,500 visas out of 25,000 visas) have been issued and 12 percent of the available Afghan SIVs (1,051 visas out of 8,500 visas) have been issued.

(6) As the Washington Post reported in October 2012, over 5,000 documentarily complete Afghan SIV applications remained in a backlog.

(7) The implementation of the Special Immigration Visa programs has been protracted and inefficient.

(8) The application and approval process for the Special Immigration Visa program is unnecessarily opaque and difficult to navigate.
(9) Applicants in both Iraq and Afghanistan often have effusive recommendations from numerous military personnel, have served the United States war efforts for many years, and have served valiantly, in some instances literally taking a bullet for a United States service member, and yet are denied approval for a Special Immigration Visa with little to no transparency.

(10) Overly narrow provisions contained in the Afghan Allies Protection Act of 2009 leave many deserving Afghans and their families in need of United States assistance, but unable to access the Special Immigration Visa program.

(11) The United States has a responsibility to follow through on its promise to protect those Iraqis and Afghans who have risked their lives to aid our troops and protect America’s security.

(12) The extension and reform of the Iraq and Afghanistan Special Immigrant Visa programs is a matter of national security.

(13) The extension and reform of the Afghan Special Immigrant Visa program is essential to the United States mission in Afghanistan.
(c) SENSE OF THE HOUSE.—It is the sense of the House of Representatives that the Iraq and Afghanistan Special Immigrant Visa programs should be—

(1) reformed by—

(A) ensuring applications are processed in a timely, and transparent fashion;

(B) providing parity between the two Special Immigrant Visa programs so that Afghan principal applicants, like Iraqi principal applicants, are able to include their spouse, children, siblings, and parents; and

(C) expanding eligibility for the Special Immigrant Visa programs to Afghan or Iraqi men and women employed by, or on behalf of, a media or nongovernmental organization headquartering in the United States, or an organization or entity closely associated with the United States mission in Iraq or Afghanistan that has received United States Government funding through an official and documented contract, award, grant, or cooperative agreement; and

(2) extended in—
(A) Iraq through the year 2018, without authorizing any additional Special Immigrant Visas as authorized in the original statue; and

(B) Afghanistan through the year 2018, without authorizing any additional Special Immigrant Visas as authorized in the original statue.

(6) a description of any such assets that will be or have been returned to the United States.

(b) COVERED DEFENSE INTELLIGENCE ASSETS DEFINED.—In this section, the term “covered defense intelligence assets” means Department of Defense intelligence assets and personnel supporting military operations in Af-
ghanistan at any time during the one-year period ending
don the date of the enactment of this Act.

6 SEC. 1232. ADDITIONAL ELEMENTS IN ANNUAL REPORT ON

tional Defense Authorization Act for Fiscal Year 2010
(Public Law 111–84; 123 Stat. 2542) is amended—

and an assessment of the capability of such
Network and how such Network operates to re-

“(F) a description of the gaps in intel-
ligence of the Department of Defense with re-
spect to Iran and a prioritization of those gaps

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act and shall apply with respect to reports required to be submitted under section 1245 of the National Defense Authorization Act for Fiscal Year 2010, as so amended, on or after that date.

SEC. 1233. SENSE OF CONGRESS ON THE DEFENSE OF THE ARABIAN GULF.

(a) FINDINGS.—Congress finds the following:

(1) In response to U.S. Central Command requirements, the United States Navy has maintained, on average, more than one aircraft carrier in the Arabian Gulf for more than five years.

(2) In February 2013, the senior leadership of the Department of Defense elected to reduce the number of aircraft carriers deployed to the Arabian Gulf in light of budget constraints and limitation of the overall carrier force structure to support the two aircraft carrier requirement.

(3) In reference to the decision to indefinitely delay the deployment of the USS Harry Truman,
CVN 75, and the USS Gettysburg, its cruiser escort,
Chairman of the Joint Chiefs, General Martin
Dempsey stated, "We’re trying to stretch our readi-
ness out by keeping this particular carrier in home-
port in our global response force, so if something
happens elsewhere in the world, we can respond to
it. Had we deployed it and ‘consumed’ that readi-
ness, we could have created a situation where down-
stream we wouldn’t have a carrier present in certain
parts of the world at all.”.

(4) Highlighting the risks of having only one
aircraft carrier in the region and relying on land-
based aircraft, General Dempsey stated, "When you
have carrier-based aircraft, you have complete au-
tonomy and control over when you use them. When
you use land-based aircraft, you often have to have
host-nation permission to use them.”.

(5) Addressing the perception of the United
States commitment to the region, General James
Mattis, Commander of U.S. Central Command, tes-
tified in March 2013, "Perhaps the greatest risk to
U.S. interests in the region is a perceived lack of an
enduring U.S. commitment to collective interests
and the security of our regional partners.”. He went
on to testify that, "The drawdown of our forces can
be misinterpreted as a lack of attention, a lack of commitment to the region.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) maintaining only one aircraft carrier battle group in the Arabian Gulf constrains United States’ options and could put at risk the ability to have diversified platforms from which to defend the Arabian Gulf and, if necessary, to conduct military operations to prevent Iran from threatening the United States, United States allies, or Iran’s neighbors with nuclear weapons;

(2) it is in the interests of the United States to maintain both land-based and sea-based capabilities in the region to project force;

(3) land-based locations in the region could restrict United States military options and critically impact the operational capability if required to conduct a defense of the Arabian Gulf because the United States has not finalized bilateral security agreements with key Gulf Cooperation Council countries;

(4) as a result of these and other critical limitations associated with maintaining one aircraft carrier battle group in the Arabian Gulf, United States
military commanders have expressed concerns about the operational constraints, the increasing uncertainty among United States allies, and the emboldening of potential adversaries such as Iran;

(5) regarding the ability of the United States Navy to maintain a two aircraft carrier presence in the Arabian Gulf, the Chief of Naval Operations, Admiral Jonathan Greenert, stated, “We need 11 carriers to do the job. That’s been pretty clearly written, and that’s underwritten in our defense strategic guidance.”.

(6) the United States should construct and sufficiently sustain a fleet of at least eleven aircraft carriers and associated battle force ships in order to meet current and future requirements and to support at least a two aircraft carrier battle group presence in the Arabian Gulf, in addition to meeting other operational requirements; and

(7) the United States should finalize bilateral agreements with key Gulf Cooperation Council countries that support the Defense of the Arabian Gulf requirements, at the earliest possible date.
SEC. 1234. INTEGRATED AIR AND MISSILE DEFENSE PROGRAMS AT TRAINING LOCATIONS IN SOUTH-WEST ASIA.

Section 544(c)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2347c(c)(1)) is amended—

(1) in the first sentence, by inserting after “programs” the following: “and integrated air and missile defense programs”; and

(2) in the second sentence, by striking “post-undergraduate flying and tactical leadership” and inserting “such”.

SEC. 1235. STATEMENT OF POLICY ON CONDEMNING THE GOVERNMENT OF IRAN FOR ITS STATE-SPONSORED PERSECUTION OF ITS BAHAI MINORITY.

(a) FINDINGS.—Congress finds the following:

(2) The United States Commission on International Religious Freedom 2012 Report stated, “The Baha’i community has long been subject to
particularly severe religious freedom violations in Iran. Baha’is, who number at least 300,000, are viewed as ‘heretics’ by Iranian authorities and may face repression on the grounds of apostasy.”

(3) The United States Commission on International Religious Freedom 2012 Report stated, “Since 1979, Iranian government authorities have killed more than 200 Baha’i leaders in Iran and dismissed more than 10,000 from government and university jobs.”.

(4) The United States Commission on International Religious Freedom 2012 Report stated, “Baha’is may not establish places of worship, schools, or any independent religious associations in Iran.”

(5) The United States Commission on International Religious Freedom 2012 Report stated, “Baha’is are barred from the military and denied government jobs and pensions as well as the right to inherit property. Their marriages and divorcees also are not recognized, and they have difficulty obtaining death certificates. Baha’i cemeteries, holy places, and community properties are often seized or desecrated, and many important religious sites have been destroyed.”.
(6) The United States Commission on International Religious Freedom 2012 Report stated, “The Baha’i community faces severe economic pressure, including denials of jobs in both the public and private sectors and of business licenses. Iranian authorities often pressure employers of Baha’is to dismiss them from employment in the private sector.”.

(7) The Department of State 2011 International Religious Freedom Report stated, “The government prohibits Baha’is from teaching and practicing their faith and subjects them to many forms of discrimination that followers of other religions do not face.”.

(8) The Department of State 2011 International Religious Freedom Report stated, “According to law, Baha’i blood is considered ‘mobah’, meaning it can be spilled with impunity.”.

(9) The Department of State 2011 International Religious Freedom Report stated that “members of religious minorities, with the exception of Baha’is, can serve in lower ranks of government employment”, and “Baha’is are barred from all leadership positions in the government and military”.

(10) The Department of State 2011 International Religious Freedom Report stated, “Baha’is
suffered frequent government harassment and persecution, and their property rights generally were disregarded. The government raided Baha’i homes and businesses and confiscated large amounts of private and commercial property, as well as religious materials belonging to Baha’is.”.

(11) The Department of State 2011 International Religious Freedom Report stated, “Baha’is also are required to register with the police”.

(12) The Department of State 2011 International Religious Freedom Report stated that “[p]ublic and private universities continued to deny admittance to and expelled Baha’i students” and “[d]uring the year, at least 30 Baha’is were barred or expelled from universities on political or religious grounds”.

(13) The Department of State 2011 International Religious Freedom Report stated, “Baha’is are regularly denied compensation for injury or criminal victimization.”.

(14) On March 6, 2012, the United Nations Special Rapporteur on the situation of human rights in the Islamic Republic of Iran issued a report (A/HRC/19/66), which stated that “the Special Rapporteur continues to be alarmed by communica-
tions that demonstrate the systemic and systematic persecution of members of unrecognized religious communities, particularly the Baha’i community, in violation of international conventions” and expressed concern regarding “an intensive defamation campaign meant to incite discrimination and hate against Baha’is”.

(15) On May 23, 2012, the United Nations Secretary-General issued a report, which stated that “the Special Rapporteur on freedom of religion or belief * * * pointed out that the Islamic Republic of Iran had a policy of systematic persecution of persons belonging to the Baha’i faith, excluding them from the application of freedom of religion or belief by simply denying that their faith had the status of a religion”.

(16) On August 22, 2012, the United Nations Secretary-General issued a report, which stated, “The international community continues to express concerns about the very serious discrimination against ethnic and religious minorities in law and in practice, in particular the Baha’i community. The Special Rapporteur on the situation of human rights in the Islamic Republic of Iran expressed alarm about the systemic and systematic persecution of
members of the Baha’i community, including severe socioeconomic pressure and arrests and detention. He also deplored the Government’s tolerance of an intensive defamation campaign aimed at inciting discrimination and hate against Baha’is.”

(17) On September 13, 2012, the United Nations Special Rapporteur on the situation of human rights in the Islamic Republic of Iran issued a report (A/67/369), which stated, “Reports and interviews submitted to the Special Rapporteur also continue to portray a disturbing trend with regard to religious freedom in the country. Members of both recognized and unrecognized religions have reported various levels of intimidation, arrest, detention and interrogation that focus on their religious beliefs.”, and stated, “At the time of drafting the report, 105 members of the Baha’i community were reported to be in detention.”.

(18) On November 27, 2012, the Third Committee of the United Nations General Assembly adopted a draft resolution (A/C.3/67/L.51), which noted, “[I]ncreased persecution and human rights violations against persons belonging to unrecognized religious minorities, particularly members of the Baha’i faith and their defenders, including esca-
lating attacks, an increase in the number of arrests
and detentions, the restriction of access to higher
education on the basis of religion, the sentencing of
twelve Baha’is associated with Baha’i educational in-
stitutions to lengthy prison terms, the continued de-
nial of access to employment in the public sector, ad-
ditional restrictions on participation in the private
sector, and the de facto criminalization of member-
ship in the Baha’i faith.’’.

(19) On December 20, 2012, the United Na-
tions General Assembly adopted a resolution (A/
RES/67/182), which called upon the government of
Iran “[t]o eliminate discrimination against, and ex-
clusion of * * * members of the Baha’i Faith, re-
garding access to higher education, and to eliminate
the criminalization of efforts to provide higher edu-
cation to Baha’i youth denied access to Iranian uni-
versities,” and “to accord all Baha’is, including
those imprisoned because of their beliefs, the due
process of law and the rights that they are constitu-
tionally guaranteed”.

(20) On February 28, 2013, the United Na-
tions Special Rapporteur on the situation of human
rights in the Islamic Republic of Iran issued a re-
port (A/HRC/22/56), which stated, “110 Bahai’s are
currently detained in Iran for exercising their faith, including two women, Mrs. Zohreh Nikayin and Mrs. Taraneh Torabi, who are reportedly nursing infants in prison”.

(21) In March and May of 2008, intelligence officials of the Government of Iran in Mashhad and Tehran arrested and imprisoned Mrs. Fariba Kamalabadi, Mr. Jamaloddin Khanjani, Mr. Afif Naeimi, Mr. Saeid Rezaie, Mr. Behrouz Tavakkoli, Mrs. Mahvash Sabet, and Mr. Vahid Tizfahm, the seven members of the ad hoc leadership group for the Baha’i community in Iran.

(22) In August 2010, the Revolutionary Court in Tehran sentenced the seven Baha’i leaders to 20-year prison terms on charges of “spying for Israel, insulting religious sanctities, propaganda against the regime and spreading corruption on earth”.

(23) The lawyer for these seven leaders, Mrs. Shirin Ebadi, the Nobel Laureate, was denied meaningful or timely access to the prisoners and their files, and her successors as defense counsel were provided extremely limited access.

(24) These seven Baha’i leaders were targeted solely on the basis of their religion.
(25) Beginning in May 2011, Government of Iran officials in four cities conducted sweeping raids on the homes of dozens of individuals associated with the Baha’i Institute for Higher Education (BIHE) and arrested and detained several educators associated with BIHE.

(26) In October 2011, the Revolutionary Court in Tehran sentenced seven of these BIHE instructors and administrators, Mr. Vahid Mahmoudi, Mr. Kamran Mortezaie, Mr. Mahmoud Badavam, Ms. Nooshin Khadem, Mr. Farhad Sedghi, Mr. Riaz Sobhani, and Mr. Ramin Zibaie, to prison terms for the crime of “membership of the deviant sect of Baha’ism, with the goal of taking action against the security of the country, in order to further the aims of the deviant sect and those of organizations outside the country”.

(27) Six of these educators remain imprisoned, with Mr. Mortezaie serving a 5-year prison term and Mr. Badavam, Ms. Khadem, Mr. Sedghi, Mr. Sobhani, and Mr. Zibaie serving 4-year prison terms.

(28) Since October 2011, four other BIHE educators, Ms. Faran Hessami, Mr. Kamran Rahimian, Mr. Kayvan Rahimian, and Mr. Shahin Negari have
been sentenced to 4-year prison terms, which they are now serving.

(29) The efforts of the Government of Iran to collect information on individual Baha’is have recently intensified as evidenced by a letter, dated November 5, 2011, from the Director of the Department of Education in the county of Shahriar in the province of Tehran, instructing the directors of schools in his jurisdiction to “subtly and in a confidential manner” collect information on Baha’i students.

(30) The Baha’i community continues to undergo intense economic and social pressure, including an ongoing campaign in the town of Semnan, where the Government of Iran has harassed and detained Baha’is, closed 17 Baha’i owned businesses in the last three years, and imprisoned several members of the community, including three mothers along with their infants.

(31) Ordinary Iranian citizens who belong to the Baha’i faith are disproportionately targeted, interrogated, and detained under the pretext of national security.
(32) The Government of Iran is party to the International Covenants on Human Rights and is in violation of its obligations under the Covenants.

(b) STATEMENT OF POLICY.—Congress—

Subtitle E—Reports and Other Matters

SEC. 1241. REPORT ON POSTURE AND READINESS OF UNITED STATES ARMED FORCES TO RESPOND TO FUTURE TERRORIST ATTACKS IN AFRICA AND THE MIDDLE EAST.

(a) Sense of Congress.—It is the sense of Congress that—

(1) the terrorist attack in Benghazi, Libya on September 11, 2012, may have never occurred or could have been prevented had there been an international stabilizing force following NATO-led operations in order to help stabilize the country, build capacity within the security forces, and pursue terrorist groups that threaten the local government as well as United States interests;

(2) the attack also highlighted the limitations of the United States military to alert, deploy, and decisively counter a no-notice terrorist attack such as the one in Benghazi, or another security contingency, due to the limitations stemming from United States military posture in Africa and the Middle East and when there is a lack of a layered defense at United States diplomatic facilities;
(3) the United States military is more effectively able to respond to terrorist attacks on United States facilities outside of the United States if the responding United States military assets are forward deployed;

(4) when an intelligence threat assessment determines that a United States facility overseas is vulnerable to attack, such facility should have robust force protection measures sufficient to safeguard personnel and assets until a United States military response can arrive;

(5) the continually evolving terrorist threat to United States interests on the Continent of Africa and the Middle East necessitates that the United States military maintains a forward deployed posture in Europe, Middle East, and Africa in order to be able to respond to terrorist events, or other security contingencies, and to effectively evacuate and recover United States personnel;

(6) the United States military, in conjunction with the Department of State and the intelligence community, should continue to evaluate the assumptions underpinning the terrorist threat in order to ensure that it is effectively able to respond globally to future terrorist attacks;
(7) the United States military should regularly re-evaluate the posture and alert status requirements of its crisis response elements in order to be more responsive to the evolving and global nature of the terrorist threat, and all United States military crisis response elements should be fully equipped with the required supporting capabilities to conduct their missions;

(8) on April 16, 2013, Chairman of the Joint Chiefs of Staff, General Martin Dempsey, testified before the House Appropriations Committee that the military is, "* * * adapting our force posture to a new normal of combustible violence in North Africa and in the Middle East";

(9) The President stated in a press conference on May 16, 2013, "I have directed the Defense Department to ensure that our military can respond lightening quick in times of crisis."

(10) the Chairman of the Joint Chiefs should continue to evaluate the posture of United States forces to respond to the global terrorist threat, including an evaluation of whether United States Africa Command should have forces and necessary equipment permanently assigned to the command to respond more promptly to this "new normal"; and
although the Department of State-initiated Accountability Review Board found that the Marine Security Guard program should be expanded and that there should be greater coordination between the Department of Defense and the Department of State to identify additional resources for security at high risk posts, the United States military may be challenged to provide additional security to Department of State facilities due to budget shortfalls, ongoing force structure constraints, and increasing operational requirements for the Department of Defense.

(b) REPORT REQUIRED.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense, in consultation with the Chairman of the Joint Chiefs of Staff, shall submit to the appropriate congressional committees a report on the posture and readiness of United States Armed Forces to respond to future terrorist attacks in Africa and the Middle East.

(2) MATTERS TO BE INCLUDED.—The plan required under paragraph (1) shall include, at a minimum, the following:
(A) An assessment of terrorist groups and other non-state groups that threaten United States interests and facilities in Africa, including a description of the key assumptions underpinning such assessment.

(B) A description of the readiness, posture, and alert status of relevant United States Armed Forces in Europe, the Middle East, Africa, and the United States and any changes implemented or planned to be implemented since the terrorist attack in Benghazi, Libya on September 11, 2012, to respond to the “new normal” and President Obama’s directive for the military to respond “lightening quick” in times of crisis.

(C) In consultation with the Secretary of State, a description of new or modified requirements of the Department of State, if any, for—

(i) United States Marine Security Guard Detachments;

(ii) any other Department of Defense assets to provide enhanced security at Department of State facilities;

(iii) an explanation of how any new requirements for Marine Security Detach-
ments or other Department of Defense assets affect the capacity of the Armed Forces, including specifically the capacity of the Marine Corps, to fulfill Department of Defense operational requirements; and

(iv) an explanation of how any unfulfilled requirements for Marine Security Detachments would adversely impact security at Department of State facilities.

(3) DEFINITION.—In this subsection, the term “appropriate congressional committees” means—

(A) the Committee on Armed Services and the Committee on Foreign Relations of the Senate; and

(B) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives.

SEC. 1242. ROLE OF THE GOVERNMENT OF EGYPT TO UNITED STATES NATIONAL SECURITY.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) Egypt is undergoing a significant political transition and the ultimate outcome of this political process and its implications for United States national security interests remain uncertain;
(2) the United States continues to have considerable concerns about the intentions and actions of the Egyptian Muslim Brotherhood and whether the government of President Morsi is committed to a pluralistic, democratic Egypt;

(3) the United States has a stake in Egypt becoming a mature, pluralistic democracy in which the rights of Egyptian citizens, including women and minorities, are protected;

(4) the United States should continue to closely monitor President Morsi’s support for the peace treaty with the Government of Israel, which has been a stabilizing force in the region for over 30 years;

(5) the United States military relationship with the Egyptian military is long-standing and should remain a key pillar to, and component of, United States engagement with Egypt;

(6) the close military-to-military relationship between the United States and Egypt has been a critical component in enabling counterterrorism cooperation between the two governments to ensure the United States military has freedom of movement throughout the region in order to deter aggression and respond to threats to United States national se-
curity interests, particularly in light of the security situation in Libya and the Sinai;

(7) the Egyptian military has exercised restraint and professionalism during the unrest in Egypt over the last two years and hopefully will remain a key mechanism through which the United States can support the people of Egypt in achieving their goals for a representative and democratic political system, while promoting peace and security in the region; and

(8) therefore, with appropriate vetting, United States military assistance and support to the Egyptian military should continue, even as civilian aid to Egypt receives greater scrutiny as a result of the uncertainty associated with Egypt’s current political leadership and economic policies.

(b) PLAN REQUIRED.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense, in consultation with the Secretary of State, shall submit to the appropriate congressional committees a report that contains a comprehensive plan for United States military assistance and cooperation with Egypt.
(2) MATTERS TO BE INCLUDED.—The plan required under paragraph (1) shall include, at a minimum, a detailed description of the following:

(A) How United States security assistance and cooperation enables—

(i) freedom of movement for the United States military throughout the region; and

(ii) the Government of Egypt to disrupt, dismantle, and defeat al Qaeda, affiliated groups, and other terrorist organizations, whether based in and operating from Egyptian territory or the region.

(B) The capacity of the Government of Egypt to prevent the illicit movement of terrorists, criminals, weapons, and other dangerous material across Egypt’s borders or administrative boundaries, including through tunnels and other illicit points of entry into Gaza.

(C) The extent to which the Egyptian military is—

(i) supporting the protection of the political, economic, and religious freedoms and human rights of all citizens and residents in Egypt, including those involved in
Egyptian civil society and democratic promotion efforts through nongovernmental organizations;

(ii) supporting credible and legitimate elections in Egypt;

(iii) supporting the Egypt-Israel Peace Treaty;

(iv) taking effective steps to eliminate smuggling networks and to detect and destroy tunnels between Egypt and Gaza;

and

(v) supporting action to combat terrorism in the Sinai.

(D) A description of the strategic objectives of the United States regarding the provision of United States security assistance to the Government of Egypt.

(E) A description of biennial outlays of United States security assistance to the Government of Egypt for the purposes of strategic planning, training, provision of equipment, and construction of facilities, including funding streams.

(F) A description of vetting and end-user monitoring systems in place by both Egypt and
the United States for defense articles and training provided by the United States, including human rights vetting.

(G) A description of actions that the Government of Egypt is taking to—

(i) repudiate, combat, and stop incitement to violence against the United States and United States citizens and prohibit the transmission within its domains of satellite television or radio channels that broadcast such incitement; and

(ii) adopt and implement legal reforms that protect the religious and democratic freedoms of all citizens and residents of Egypt.

(H) Recommendations, including with respect to required resources and actions, to maximize the effectiveness of United States security assistance provided to Egypt.

(3) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this subsection, the term “appropriate congressional committees” means—

(A) the congressional defense committees; and
(B) the Committee on Foreign Relations of
the Senate and the Committee on Foreign Af-
fairs of the House of Representatives.

(c) GAO REPORT.—Not later than 120 days after the
date of the submission of the report required under sub-
section (b), the Comptroller General of the United States
shall submit to the appropriate congressional committees
a report that—

(1) reviews and comments on the report re-
quired under subsection (b); and

(2) provides recommendations regarding addi-
tional actions with respect to the provision of United
States security assistance to Egypt, if necessary.

SEC. 1243. SENSE OF CONGRESS ON THE MILITARY DEVEL-
OPMENTS ON THE KOREAN PENINSULA.

(a) FINDINGS.—Congress finds the following:

(1) The Democratic People’s Republic of Korea
(“North Korea”) has escalated regional tensions
with hostile rhetoric and provocative actions.

(2) North Korea threatened a nuclear attack on
the United States and a resumption of open war
against the Republic of Korea (“South Korea”).

(3) North Korea’s nuclear weapons and ballistic
missile programs constitute a threat to the national
security of the United States and to regional sta-

(4) On April 14, 2009, North Korea halted ne-
gotiations regarding its nuclear weapons program
when it abandoned the Six-Party Talks with the
People’s Republic of China (“China”), Japan, the
Russian Federation (“Russia”), South Korea, and
the United States.

(5) On May 25, 2009, North Korea detonated
a nuclear device in an underground explosive test.

(6) On March 26, 2010, North Korea sank a
South Korean naval vessel, the Cheonan, killing 46
South Korean sailors.

(7) On November 23, 2010, North Korea
shelled the border island of Yeonpyeong-do, killing
four people. This was the first direct artillery attack
on South Korean territory since the signing of the
1953 armistice.

(8) On April 13, 2012, North Korea conducted
a rocket launch that failed to send a satellite into
orbit. This launch violated United Nations Security
Council (UNSC) Resolutions 1718 and 1874.

(9) On December 12, 2012, North Korea used
banned long-range missile technology to launch an
earth observation satellite into orbit. In response,
the UNSC unanimously adopted Resolution 2087, condemning the launch.

(10) On February 12, 2013, North Korea conducted a third underground nuclear test in violation of UNSC Resolution 1718, 1874, and 2087. The test also contravened North Korea’s commitments under the September 2005 Joint Statement of the Six-Party Talks.

(11) On March 7, 2013, the UNSC unanimously adopted Resolution 2094, condemning North Korea’s third nuclear test and imposed additional sanctions against the regime.

(12) On March 28, 2013, North Korea unilaterally nullified the armistice agreement with the United States that suspended military conflict on the Korean peninsula.

(13) On March 30, 2013, North Korea declared a state of war with South Korea.

(14) On April 4, 2013, North Korea placed two intermediate-range Musudan missiles on mobile launchers and temporarily relocated them to the eastern coast of the Korean peninsula before removing them a month later from the launch sites.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—
(1) the United States and its allies, South Korea and Japan, share the goal of a stable and peaceful Korean Peninsula, free of nuclear weapons;

(2) the United States remains committed to defending its allies in the Asia-Pacific region and stability in Northeast Asia requires restraint by all parties from activities that would complicate international relations or escalate international tensions, and international disputes should be mitigated in a constructive manner consistent with established principles of international law;

(3) Congress supports—

(A) the verifiable denuclearization of the Korean Peninsula in a peaceful manner,

(B) North Korea’s abandonment of its nuclear programs and return to the Treaty on the Nonproliferation of Nuclear Weapons and to International Atomic Energy Agency safeguards; and

(C) North Korea’s full acceptance of and compliance with the terms of the 1953 Armistice Agreement;

(4) the United States has national interests in security and stability in the Asia-Pacific region, the implementation of the United States-Korea Free
Trade Agreement, nuclear non-proliferation efforts, the promotion of respect for the fundamental human rights of the North Korean people, international cyber-security cooperation, and full implementation of United States and multilateral sanctions against illicit activities;

(5) the United States encourages China and Russia to fully implement and enforce United States and United Nations Security Council sanctions against North Korea; and

(6) the President, the Secretary of State, and the Secretary of Defense should keep Congress fully informed on security developments on the Korean Peninsula.

SEC. 1244. STATEMENT OF CONGRESS ON DEFENSE CO-
OPERATION WITH GEORGIA.

(a) FINDINGS.—Congress finds the following:

(1) The Republic of Georgia is a highly valued ally of the United States and has repeatedly demonstrated its commitment to advancing the mutual interests of both countries, including the deployment of Georgian forces as part of the NATO-led International Security Assistance Force in Afghanistan and the Multi-National Force in Iraq.
(2) The peaceful transfer of power as the result of the free and fair parliamentary elections in Georgia in October 2012 represents a major accomplishment toward the Georgian people’s creation of a free society and full democracy.

(3) However, since the October 2012 parliamentary elections the new Georgian Government has taken a series of measures against former officials and members of the current political opposition that appear to be motivated by political considerations.

(4) Over 100 former Georgian Government officials have been charged with criminal violations since the October 2012 parliamentary elections.

(5) Similar charges have been filed against members of the political opposition, including Vano Merabishvili, the Secretary General of the United National Movement.

(6) The arrest of the leader of an opposition party is especially troubling, particularly its chilling effect on political freedom prior to the presidential election scheduled for October 2013.

(7) The Georgian Government has taken insufficient action to prevent further violence against
members of the United National Movement and to punish offenders.

(8) These actions call into question the Georgian Government’s continued progress toward the creation of a free and democratic society in which basic freedoms, including freedom for political opposition, are guaranteed.

(b) STATEMENT OF CONGRESS.—Congress declares that—

(1) the United States remains committed to assisting the people of Georgia in establishing a free and democratic society in their country;

(2) the measures taken by the Georgian Government against former officials and political opponents, apparently in part motivated by political considerations, may have a significant negative impact on cooperation between the United States and Georgia, including efforts to build a stronger relationship in political, economic, and security matters, as well as progress on integrating Georgia into international organizations;

(3) the United States must be unambiguous when democratic backsliding occurs in a key ally after a peaceful and democratic transfer of power between political parties; and
(4) the people of the United States and the Members of Congress express their deepest condolences to the Georgian people on the tragic loss of seven soldiers of Georgia in a suicide bombing on June 6, 2013, and the deaths of three soldiers killed in another suicide bombing on May 13, 2013, while they were supporting United States and NATO forces in Afghanistan.

(3) An explanation of why existing regional centers and multilateral frameworks cannot satisfy the requirements and needs of the Department of Defense and geographic combatant commands.

(5) Any other matters that the Secretary of Defense or Secretary of State determines appropriate.

SEC. 1251. SENSE OF CONGRESS ON THE CONFLICT IN SYRIA.

(a) FINDINGS.—Congress finds the following:

(1) The conflict in Syria began in March 2011.

(2) As of February 2013, the United Nations High Commissioner for Human Rights estimated that approximately 70,000 Syrians have been killed during the conflict.

(3) According to the United Nations High Commissioner for Refugees, over 1,200,000 Syrians are registered refugees or persons of concern including, over 66,000 in Egypt, over 145,000 in Iraq, over 461,000 in Jordan, over 462,000 in Lebanon, and over 329,000 in Turkey.

(4) Jabhat al-Nusra, a group located in Syria and categorized as an affiliate of al-Qaeda by the intelligence community, presents a direct threat to the interests of the United States and could present a direct threat to the United States.

(5) On August 19, 2011, President Obama stated: “The future of Syria must be determined by its people, but President Bashar al-Assad is standing in their way. We have consistently said that President Assad must lead a democratic transition or get out of the way. He has not led. For the sake
of the Syrian people, the time has come for President Assad to step aside.”.

(6) The United States is deploying 200 military personnel from the headquarters of the 1st Armored Division to Jordan in order to “improve readiness and prepare for a number of scenarios”.

(7) In a letter from Miguel Rodriguez, the Assistant to the President for Legislative Affairs, to Senators McCain and Levin, dated April 25, 2013, it stated that “our intelligence community does assess with varying degrees of confidence that the Syrian regime has used chemical weapons on a small scale in Syria, specifically, the chemical agent sarin

* * * We do believe that any use of chemical weapons in Syria would very likely have originated with the Assad regime * * * the President has made it clear that the use of chemical weapons—or the transfer of chemical weapons to terrorist groups—is a red line for the United States of America”.

(8) In a press conference with Israel Prime Minister, Benjamin Netanyahu, President Obama stated: “I have made clear that the use of chemical weapons is a game-changer”.

(9) In August 2012, during a White House press conference, President Obama stated: “We have
been very clear to the Assad regime, but also to
other players on the ground, that a redline for us is
we start seeing a whole bunch of chemical weapons
moving around or being utilized.”.

(10) It is a threat to the vital national security
interest of the United States if terrorist groups,
such as al-Qaeda, obtain chemical or biological mate-
rial or weapons in Syria.

(11) At a Pentagon press conference on May 2,
2013, Secretary Hagel confirmed that the Obama
Administration is re-thinking its opposition to arm-
ing the rebels.

(12) On April 11, 2013, responding to a ques-
tion about the need for a supplemental funding re-
quest for any potential United States military effort
in Syria, Secretary Hagel stated: “Yes, I think it is
pretty clear that a supplemental would be re-
quired.”.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) President Obama should have a comprehen-
sive policy and should ensure robust contingency
planning to secure United States’ interests in Syria;
(2) President Obama should fully consider all courses of action to remove President Bashar al-Assad from power;

(3) the conflict in Syria threatens the vital national security interests of Israel and the stability of Jordan, Lebanon, and Turkey, the implications of which should be sufficiently weighed by the President when considering policy approaches towards the conflict in Syria;

(4) the sale or transfer of advanced anti-aircraft weapons systems to Syria poses a grave risk to Israel and the United States supports Israel’s right to respond to this grave threat as needed;

(5) the President should fully consider all courses of action to reinforce his stated “redline” regarding the use of weapons of mass destruction by the Assad regime in Syria, which could threaten the credibility of the United States with its allies in the region and embolden the Assad regime;

(6) the United States should continue to conduct rigorous planning and operational preparation to support any efforts to secure the chemical and biological stockpiles and associated weapons;

(7) the United States should have a policy that supports the stability of countries on Syria’s border,
including Jordan, Turkey, Iraq, Lebanon, and Israel;

(8) the United States should continue to support Syrian opposition forces with non-lethal aid;

(9) the President, the Department of Defense, the Department of State, and the intelligence community, in cooperation with European and regional allies, should ensure that the risks of all courses of action or inaction regarding Syria are fully explored and understood and that Congress is kept fully informed of such risks;

(10) the President should fully consider, and the Department of Defense should conduct prudent planning for, the provision of lethal aid and relevant operational training to vetted Syrian opposition forces, including an analysis of the risks of the provision of such aid and training;

(11) should the President decide to employ any military assets in Syria, the President should provide a supplemental budget request to Congress; and

(12) the President should use all diplomatic means to disrupt the flow of arms into Syria, including efforts to dissuade Russia from further arms sales with Syria, the influx of weapons and fighters
from Hezbollah, and the infiltration of weapons and
fighters from Iran.

Clause 2 of the Constitution or unless authorized by the enactment of further affirmative legislation by the Congress of the United States.”.

(b) LIMITATION ON FUNDS.—None of the funds authorized to be appropriated or otherwise made available for fiscal year 2014 or any fiscal year thereafter for the Department of Defense may be used—

(1) to implement any executive agreement relating to the missile defense capabilities of the United States, including basing, locations, capabilities, and numbers of missiles with respect to such missile defense capabilities; or

(2) to implement rules of engagement or Guidance for Employment of Force relating to such executive agreement.

(e) RULE OF CONSTRUCTION.—Subsection (b) shall not apply with respect to the use of funds to negotiate or implement any executive agreement with a country with respect to which the United States has entered into a treaty of alliance or has a security guarantee.

(d) EXECUTIVE AGREEMENT DEFINED.—In this section, the term “executive agreement” means an international agreement other than—
(1) an agreement that is in the form of a treaty under article II, section 2, clause 2 of the Constitution of the United States; or

(2) an agreement that requires implementing legislation to be enacted into law for the agreement to enter into force with respect to the United States.

SEC. 1254. LIMITATION ON AVAILABILITY OF FUNDS FOR THREAT REDUCTION ENGAGEMENT ACTIVITIES AND UNITED STATES CONTRIBUTIONS TO THE COMPREHENSIVE NUCLEAR-TEST-BAN TREATY ORGANIZATION.

(a) IN GENERAL.—None of the funds made available for fiscal year 2014 for Threat Reduction Engagement activities may be obligated or expended for such purposes until the President certifies to Congress that no state party to the Comprehensive Nuclear-Test-Ban Treaty has undertaken nuclear weapons test activities in fiscal year 2013 that are inconsistent with United States interpretations regarding obligations under such Treaty.

(b) LOBBYING OR ADVOCACY ACTIVITIES.—None of the funds made available for fiscal year 2014 for contributions of the United States to the CTBTO entities may be used for lobbying or advocacy in the United States relating to the Comprehensive Nuclear-Test-Ban Treaty.
(c) CTBTO Entities.—In subsection (b), the term “CTBTO entities” means—
(1) the Comprehensive Nuclear-Test-Ban Treaty Organization International Monitoring System; and
(2) the Comprehensive Nuclear-Test-Ban Treaty Organization Preparatory Commission-Special Contributions.

SEC. 1255. SENSE OF CONGRESS ON MILITARY-TO-MILITARY COOPERATION BETWEEN THE UNITED STATES AND BURMA.

It is the sense of the Congress that—
(1) as the United States policy rebalances towards Asia, it is critical that the United States military comprehensively evaluate its engagement with Burma;
(2) the future of the military-to-military relationship between the United States and Burma should take into account the current ethnic conflict in Burma and persecution of ethnic and religious minorities;
(3) while the United States has national security interests in Burma’s peace and stability, the peaceful settlement of armed conflicts with the ethnic minority groups requires the Burmese military to
respect ceasefire agreements, laws of war, and
human rights provisions; and

(4) the Department of Defense should fully con-
sider and assess the Burmese military’s efforts to
implement reforms, end impunity for human rights
abuses, and increase transparency and accountability
before expanding military-to-military cooperation be-
yond initial dialogue and isolated engagements.

SEC. 1256. SENSE OF CONGRESS ON THE STATIONING OF
UNITED STATES FORCES IN EUROPE.

(a) FINDINGS.—Congress finds the following:

(1) During the past several years, over 700 ki-
etic terror incidents have occurred in the U.S. Eu-
ropean Command (EUCOM) area of operations. Ris-
ing tensions in the region due to unemployment, fis-
cal insolvency, ethnic strife, hegemonic desires, and
terrorism, pose risks to the security and stability of
Europe.

(2) Arab Spring uprisings in Middle Eastern
and North African countries, including the Republic
of Mali, the Arab Republic of Egypt, Libya, and the
Syrian Arab Republic (Syria), have presented emerg-
ing strategic challenges that present significant im-
plications for regional stability, the security of the
State of Israel (Israel), and the national security in-
terests of the United States and many European allies.

(3) U.S. Africa Command does not have formally assigned Army or Marine Corps units assigned to it and it continues to share Air Force and Navy component commands with EUCOM. Consequently, United States forces stationed in Europe have been deployed to support contingencies associated with the Arab Spring in North Africa.

(4) The Commander of U.S. European Command is responsible for developing operational plans for the defense of Israel. Moreover, forces stationed in Europe would be deployed to defend Israel in the event of such a contingency.

(5) Regimes, including the Islamic Republic of Iran and Syria, continue efforts to procure, develop, and proliferate advanced ballistic missile technologies that pose a serious threat to United States forces and installations in the theater, as well as to the territory, populations, and forces of Israel and European allies. United States missile defense capabilities in Europe seek to mitigate these threats.

(6) Violent extremist organizations, including Kongra-Gel, al Qaida, Lebanese Hizballah, and Iranian Qods Force, may utilize Europe as an impor-
tant venue for recruitment, logistical support, financing, and the targeting of the United States and Western interests.

(7) Congress has lacked sufficient data to compare the strategic benefits and the costs associated with permanently stationing forces in Europe. The Government Accountability Office (GAO) has found that the combatant commands do not completely and consistently report cost data in their theater posture plans. In particular, GAO reported in February 2011 that EUCOM lacks comprehensive cost data in its theater posture plans and therefore decision makers lack critical information that could be used to make fully informed posture decisions. Additionally, in June 2012, GAO found that the Department of Defense has taken steps to align posture initiatives with strategy and cost, but continues to lack comprehensive and consistent cost estimates of initiatives.

(8) The Department of Defense has reported that the cost of permanently stationing forces in the United States rather than overseas is often offset by such factors as increased rotational costs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—
(1) an enduring United States presence and engagement across Europe and Eurasia provides the critical access and infrastructure necessary to accomplish United States strategic priorities, expand United States global reach to Europe, Eurasia, the Middle East, Africa, as well as the Mediterranean and Atlantic Oceans, and facilitates a rapid United States response for complex contingencies;

(2) the United States continues to have an interest in supporting the stability and security of Europe, especially in a dynamic and challenging global security environment;

(3) forward-stationed active duty service members, forward-deployed rotational units, and reserve forces assigned to U.S. European Command remain essential for United States planning, logistics, and operations in support of U.S. Central Command, U.S. Africa Command, U.S. Transportation Command, U.S. Special Operations Command, and U.S. Strategic Command, as well as fulfilling commitments under Article V of the North Atlantic Charter;

(4) in light of the benefits associated with defense of the homeland forward and strategic access, as well as the potential for rotational deployments to
increase cost to the Department of Defense, the De-
partment of Defense should implement the rec-
ommendations of the Government Accountability Of-
office with regard to improved cost estimation to en-
able informed force posture decisions prior to mak-
ing any further significant changes to the United
States force posture in Europe that could increase
risk for the United States; and

(5) the Secretary of Defense should keep Con-
gress fully and currently informed regarding the re-
quirements of the United States force posture in Eu-
rope and the costs associated with maintaining such
force.

SEC. 1257. SENSE OF CONGRESS ON MILITARY CAPABILI-
TIES OF THE PEOPLE'S REPUBLIC OF CHINA.

Congress—

(1) notes the People’s Republic of China (PRC)
continues to rapidly modernize and expand its mili-
tary capabilities across the land, sea, air, space, and
cyberspace domains;

(2) is concerned by the rate and scope of PRC
military developments, including its military-focused
cyber espionage, which indicate a desire to constrain
or prevent the peaceful activities of the United
States and its allies in the Western Pacific;
(3) concurs with Admiral Samuel Locklear, commander of U.S. Pacific Command, that “China’s rapid development of advanced military capabilities, combined with its unclear intentions, certainly raises strategic and security concerns for the U.S. and the region”;

(4) notes the United States remains committed to a robust forward military-presence in the Asia-Pacific and will continue to vigorously support mutual defense arrangements with treaty allies while also building deeper relationships with other strategic partners in the region; and

(5) urges the Government of the PRC to work peacefully to resolve existing territorial disputes and to adopt a maritime code of conduct with relevant parties to guide all forms of maritime interaction and communications in the Asia-Pacific.

SEC. 1258. RULE OF CONSTRUCTION.

Nothing in this Act shall be construed as authorizing the use of force against Syria or Iran.

SEC. 1259. SENSE OF CONGRESS REGARDING RELATIONS WITH TAIWAN.

It is the sense of Congress that the United States should—
(1) allow all high-level officials of Taiwan to
enter into the United States or its embassies and
consulates under conditions which demonstrate ap-
propriate respect for the dignity of such leaders;

(2) allow meetings between all high-level Tai-
wan and United States officials in United States ex-
ecutive departments;

(3) allow the Taipei Economic and Cultural
Representative Office and all other instrumentalities
established in the United States by Taiwan to con-
duct business activities, including activities which in-
volve participation by Members of Congress and
other representatives of Federal, State, and local
governments, and all high-level Taiwan officials,
without obstruction from the United States Govern-
ment or any foreign power; and

(4) adopt a policy of allowing high-ranking Tai-
wan leaders to make official visits with high-ranking
officials of the United States, including official visits
by Taiwan’s democratically elected president, and al-
lowing for visits between these officials in Wash-
ington, D.C.

SEC. 1260. SENSE OF CONGRESS ON THE THREAT POSED BY
HEZBOLLAH.

(a) FINDINGS.—Congress finds the following:
Hezbollah has been designated a foreign terrorist organization by the Department of State since October 8, 1997.

Hezbollah has been responsible for numerous terrorist attacks and attempted terrorist attacks around the world, including attacks against United States citizens.

Hezbollah is active in Europe and has been linked to a July 18, 2012, suicide bombing in Bulgaria which killed five people.

Hezbollah operatives have been captured around the world attacking or attempting to attack Western and Israeli targets.

The United States is working with its European allies to combat terrorism through a variety of means, including through NATO’s Partnership Action Plan against Terrorism and the Defence Against Terrorism Programme of Work.

It is the sense of Congress that—

the United States should continue to use all necessary means to fight against terrorism, including Hezbollah;
(2) President Obama should strongly encourage his European counterparts to publicly condemn Hezbollah;

(3) European allies should seek to officially recognize Hezbollah as a terrorist organization;

(4) any attempt to distinguish between military and civilian wings in Hezbollah is meaningless; and

(5) all countries should work together to fight radical terrorist organizations like Hezbollah.

SEC. 1261. COMBATING CRIME THROUGH INTELLIGENCE CAPABILITIES.

The Secretary of Defense is authorized to deploy assets, personnel, and resources to the Joint Interagency Task Force South, in coordination with SOUTHCOM, to combat the following by supplying sufficient intelligence capabilities:

(1) Transnational criminal organizations.

(2) Drug trafficking.

(3) Bulk shipments of narcotics or currency.

(4) Narco-terrorism.

(5) Human trafficking.

(6) The Iranian presence in the Western Hemisphere.
SEC. 1262. LIMITATION ON AVAILABILITY OF FUNDS TO IMPLEMENT THE ARMS TRADE TREATY.

None of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2014 or any fiscal year thereafter for the Department of Defense may be obligated or expended to implement the Arms Trade Treaty, or to make any change to existing programs, projects, or activities as approved by Congress in furtherance of, pursuant to, or otherwise to implement the Arms Trade Treaty, unless the Arms Trade Treaty has been signed by the President, received the advice and consent of the Senate, and has been the subject of implementing legislation by the Congress.

SEC. 1263. WAR POWERS OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) In 1793, George Washington said, “The constitution vests the power of declaring war in Congress; therefore no offensive expedition of importance can be undertaken until after they shall have deliberated upon the subject and authorized such a measure.”.

(2) In a letter to Thomas Jefferson in 1798, James Madison wrote: “The constitution supposes, what the History of all Governments demonstrates, that the Executive is the branch of power most interested in war, and most prone to it. It has accord-
ingly with studied care vested the question of war to
the Legislature.”

(3) In 1973, Congress passed the War Powers
Resolution which states in section 2: “The constitu-
tional powers of the President as Commander-in-
Chief to introduce United States Armed Forces into
hostilities, or into situations where imminent involve-
ment in hostilities is clearly indicated by the cir-
cumstances, are exercised only pursuant to (1) a
declaration of war, (2) specific statutory authoriza-
tion, or (3) national emergency created by attack
upon the United States, its territories or posses-
sions, or its armed forces.”.

(4) In its April 1, 2011, Memorandum to Presi-
dent Obama, the Office of Legal Counsel concluded:
“President Obama could rely on his constitutional
power to safeguard the national interest by directing
the anticipated military operations in Libya—which
were limited in their nature, scope, and duration—
without prior congressional authorization.”.

(5) On June 15, 2011, in a letter to the Speak-
er of the House of Representatives from the Depart-
ment of Defense and Department of State, the De-
partments informed Congress that “The President is
of the view that the current U.S. military operations
in Libya are consistent with the War Powers Resolution and do not under that law require further congressional authorization, because U.S. military operations are distinct from the kind of 'hostilities contemplated by the Resolution’s 60 day termination provision'.

(6) The precedence set by the Executive Branch in its assertion that Congress plays no role in military actions like those taken in Libya is contrary to the intent of the Framers and of the Constitution which vests sole authority to declare war in the Legislative Branch.

(b) RULE OF CONSTRUCTION.—Nothing in this Act shall be construed to authorize any use of military force.

SEC. 1264. PROHIBITION ON USE OF DRONES TO KILL UNITED STATES CITIZENS.

(a) PROHIBITION.—The Department of Defense may not use a drone to kill a citizen of the United States.

(b) EXCEPTION.—The prohibition under subsection (a) shall not apply to an individual who is actively engaged in combat against the United States.

(c) DEFINITION.—In this section, the term “drone” means an unmanned aircraft (as defined in section 331 of the FAA Modernization and Reform Act of 2012 (49 U.S.C. 40101 note)).
SEC. 1265. SALE OF F–16 AIRCRAFT TO TAIWAN.

The President shall carry out the sale of no fewer than 66 F–16C/D multirole fighter aircraft to Taiwan.

SEC. 1266. STATEMENT OF POLICY AND REPORT ON THE INHERENT RIGHT OF ISRAEL TO SELF-DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States-Israel Enhanced Security Cooperation Act of 2012 (22 U.S.C. 8601 et seq.) established the policy of the United States to support the inherent right of Israel to self-defense.

(2) The United States-Israel Enhanced Security Cooperation Act of 2012 (22 U.S.C. 8601 et seq.) expressed the sense of Congress that the Government of the United States should transfer to the Government of Israel defense articles and defense services such as air refueling tankers, missile defense capabilities, and specialized munitions.

(3) The inherent right of Israel to self-defense necessarily includes the possession and maintenance by Israel of an independent capability to remove existential threats to its security and defend its vital national interests.

(b) POLICY OF THE UNITED STATES.—It is the policy of the United States to take all necessary steps to en-
sure that Israel possesses and maintains an independent
capability to remove existential threats to its security and
defend its vital national interests.

(c) Sense of Congress.—It is the sense of Con-
gress that air refueling tankers and advanced bunker-
buster munitions should immediately be transferred to
Israel to ensure our democratic ally has an independent
capability to remove any existential threat posed by the
Iranian nuclear program and defend its vital national in-
terests.

(d) Report.—Not later than 90 days after the date
of the enactment of this Act, and every 90 days thereafter,
the President shall submit to the House and Senate
Armed Services committees, the House Foreign Affairs
Committee, the Senate Foreign Relations Committee, and
the House and Senate Appropriations committees a report
that—

(1) identifies all aerial refueling platforms,
bunker-buster munitions, and other capabilities and
platforms that would contribute significantly to the
maintenance by Israel of a robust independent capa-
bility to remove existential security threats, includ-
ing nuclear and ballistic missile facilities in Iran,
and defend its vital national interests;
(2) assesses the availability for sale or transfer of items necessary to acquire the capabilities and platforms described in paragraph (1) as well as the legal authorities available for making such transfers; and

(3) describes the steps the President is taking to immediately transfer the items described in paragraph (1) pursuant to the policy described in subsection (b).

SEC. 1267. REPORT ON COLLECTIVE AND NATIONAL SECURITY IMPLICATIONS OF CENTRAL ASIAN AND SOUTH CAUCASUS ENERGY DEVELOPMENT.

(a) FINDINGS.—Congress finds the following:

(1) Assured access to stable energy supplies is an enduring concern of both the United States and the North Atlantic Treaty Organization (NATO).

(2) Adopted in Lisbon in November 2010, the new NATO Strategic Concept declares that “[s]ome NATO countries will become more dependent on foreign energy suppliers and in some cases, on foreign energy supply and distribution networks for their energy needs”.

(3) The report required by section 1233 of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112–81) reaffirmed the Strategic
Concept’s assessment of growing energy dependence of some members of the NATO alliance and also noted there is value in the assured access, protection, and delivery of energy.

(4) Development of energy resources and transit routes in the areas surrounding the Caspian Sea can diversify sources of supply for members of the NATO alliance, particularly those in Eastern Europe.

(b) REPORT.—

(1) REPORT.—Not later than 270 days after the date of the enactment of this Act, the Secretary of Defense shall, in consultation with the Secretary of State and the Secretary of Energy, submit to the appropriate congressional committees a detailed report on the implications of new energy resource development and distribution networks, both planned and under construction, in the areas surrounding the Caspian Sea for energy security strategies of the United States and NATO.

(2) ELEMENTS.—The report required by paragraph (1) shall include the following:

(A) An assessment of the dependence of NATO members on a single oil or natural gas supplier or distribution network.
(B) An assessment of the potential of energy resources of the areas surrounding the Caspian Sea to mitigate such dependence on a single supplier or distribution network.

(C) Recommendations, if any, for ways in which the United States can help support increased energy security for NATO members.

(3) Submission of classified information.—The report under this subsection shall be submitted in unclassified form, but may contain a classified annex.

(c) Appropriate Congressional Committees Defined.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives; and

(2) the Committee on Armed Services and the Committee on Foreign Relations of the Senate.

sional committees a report, in both classified and unclassified form, on the current and future military power of the Russian Federation (in this section referred to as “Russia”). (9) The strategy and capabilities of Russian space and counterspace programs, including trends, global and regional activities, the involvement of military and civilian organizations, including state-owned enterprises, academic institutions, and commercial entities, and efforts to develop, acquire, or

(c) DEFINITION.—In this section the term “specified
congressional committees” means—

(1) the Committee on Armed Services and the
Committee on Foreign Affairs of the House of Rep-
resentatives; and

(2) the Committee on Armed Services and the
Committee on Foreign Relations of the Senate.

SEC. 1269. LIMITATION ON ASSISTANCE TO PROVIDE TEAR
GAS OR OTHER RIOT CONTROL ITEMS.

None of the funds authorized to be appropriated by
this Act may be used to provide tear gas or other riot
control items to the government of a country undergoing
a transition to democracy in the Middle East or North
Africa unless the Secretary of Defense certifies to the
Committee on Armed Services of the Senate and the Com-
mitee on Armed Services of the House of Representatives
that the security forces of such government are not using
excessive force to repress peaceful, lawful, and organized
dissent.
SEC. 1270. REPORT ON CERTAIN FINANCIAL ASSISTANCE TO AFGHAN MILITARY.

Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on measures to monitor and ensure that United States financial assistance to the Afghan National Security Forces to purchase fuel is not used to purchase fuel from Iran in violation of United States sanctions.

SEC. 1271. ISRAEL’S RIGHT TO SELF-DEFENSE.

Congress fully supports Israel’s lawful exercise of self-defense, including actions to halt regional aggression.

SEC. 1272. SENSE OF CONGRESS STRONGLY SUPPORTING THE FULL IMPLEMENTATION OF UNITED STATES AND INTERNATIONAL SANCTIONS ON IRAN AND URGING THE PRESIDENT TO CONTINUE TO STRENGTHEN ENFORCEMENT OF SANCTIONS LEGISLATION.

(a) FINDINGS.—Congress finds the following:

(1) On May 14, 1948, the people of Israel proclaimed the establishment of the sovereign and independent State of Israel.

(2) On March 28, 1949, the United States Government recognized the establishment of the new State of Israel and established full diplomatic relations.
(3) Since its establishment nearly 65 years ago, the modern State of Israel has rebuilt a nation, forged a new and dynamic democratic society, and created a thriving economic, political, cultural, and intellectual life despite the heavy costs of war, terrorism, and unjustified diplomatic and economic boycotts against the people of Israel.

(4) The people of Israel have established a vibrant, pluralistic, democratic political system, including freedom of speech, association, and religion; a vigorously free press; free, fair, and open elections; the rule of law; a fully independent judiciary; and other democratic principles and practices.

(5) Since the 1979 revolution in Iran, the leaders of the Islamic Republic of Iran have repeatedly made threats against the existence of the State of Israel and sponsored acts of terrorism and violence against its citizens.

(6) On October 27, 2005, President of Iran Mahmoud Ahmadinejad called for a world without America and Zionism.

(7) In February 2012, Supreme Leader of Iran Ali Khamenei said of Israel, “The Zionist regime is a true cancer tumor on this region that should be cut off. And it definitely will be cut off.”
(8) In August 2012, Supreme Leader Khamenei said of Israel, “This bogus and fake Zionist outgrowth will disappear off the landscape of geography.”.

(9) In August 2012, President Ahmadinejad said that “in the new Middle East * * * there will be no trace of the American presence and the Zionists”;

(10) The Department of State has designated the Islamic Republic of Iran as a state sponsor of terrorism since 1984 and has characterized the Islamic Republic of Iran as the “most active state sponsor of terrorism” in the world.

(11) The Government of the Islamic Republic of Iran has provided weapons, training, funding, and direction to terrorist groups, including Hamas, Hizballah, and Shiite militias in Iraq that are responsible for the murder of hundreds of United States service members and innocent civilians.

(12) The Government of the Islamic Republic of Iran has provided weapons, training, and funding to the regime of Bashar al Assad that has been used to suppress and murder its own people.

(13) Since at least the late 1980s, the Government of the Islamic Republic of Iran has engaged in
a sustained and well-documented pattern of illicit and deceptive activities to acquire a nuclear weapons capability.

(14) Since September 2005, the Board of Governors of the International Atomic Energy Agency (IAEA) has found the Islamic Republic of Iran to be in non-compliance with its safeguards agreement with the IAEA, which Iran is obligated to undertake as a non-nuclear-weapon State Party to the Treaty on the Non-Proliferation of Nuclear Weapons, done at Washington, London, and Moscow July 1, 1968, and entered into force March 5, 1970 (NPT).

(15) The United Nations Security Council has adopted multiple resolutions since 2006 demanding of the Government of the Islamic Republic of Iran its full and sustained suspension of all uranium enrichment-related and reprocessing activities and its full cooperation with the IAEA on all outstanding issues related to its nuclear activities, particularly those concerning the possible military dimensions of its nuclear program.

(16) The Government of the Islamic Republic of Iran has refused to comply with United Nations Security Council resolutions or to fully cooperate with the IAEA.
(17) In November 2011, the IAEA Director General issued a report that documented “serious concerns regarding possible military dimensions to Iran’s nuclear programme”, and affirmed that information available to the IAEA indicates that “Iran has carried out activities relevant to the development of a nuclear explosive device” and that some activities may be ongoing.

(18) The Government of Iran stands in violation of the Universal Declaration of Human Rights for denying its citizens basic freedoms, including the freedoms of expression, religion, peaceful assembly and movement, and for flagrantly abusing the rights of minorities and women.

(19) In his State of the Union Address on January 24, 2012, President Barack Obama stated, “Let there be no doubt: America is determined to prevent Iran from getting a nuclear weapon, and I will take no options off the table to achieve that goal.”.

(20) Congress has passed and the President has signed into law legislation imposing significant economic and diplomatic sanctions on Iran to encourage the Government of Iran to abandon its pursuit of nuclear weapons and end its support for terrorism.
(21) These sanctions, while having significant
effect, have yet to persuade Iran to abandon its il-
licit pursuits and comply with United Nations Secu-
ritry Council resolutions.

(22) More stringent enforcement of sanctions
legislation, including elements targeting oil exports
and access to foreign exchange, could still lead the
Government of Iran to change course.

(23) In his State of the Union Address on Feb-
uary 12, 2013, President Obama reiterated, “The
leaders of Iran must recognize that now is the time
for a diplomatic solution, because a coalition stands
united in demanding that they meet their obliga-
tions. And we will do what is necessary to prevent
them from getting a nuclear weapon.”.

(24) On March 4, 2012, President Obama sta-
ed, “Iran’s leaders should understand that I do not
have a policy of containment; I have a policy to pre-
vent Iran from obtaining a nuclear weapon.”.

(25) On October 22, 2012, President Obama
said of Iran, “The clock is ticking * * * And we’re
going to make sure that if they do not meet the de-
mands of the international community, then we are
going to take all options necessary to make sure
they don’t have a nuclear weapon.”.
(26) On May 19, 2011, President Obama stated, “Every state has the right to self-defense, and Israel must be able to defend itself, by itself, against any threat.”.

(27) On September 21, 2011, President Obama stated, “America’s commitment to Israel’s security is unshakeable. Our friendship with Israel is deep and enduring.”.

(28) On March 4, 2012, President Obama stated, “And whenever an effort is made to delegitimize the state of Israel, my administration has opposed them. So there should not be a shred of doubt by now: when the chips are down, I have Israel’s back.”.

(29) On October 22, 2012, President Obama stated, “Israel is a true friend. And if Israel is attacked, America will stand with Israel. I’ve made that clear throughout my presidency * * * I will stand with Israel if they are attacked.”.

(30) In December 2012, 74 United States Senators wrote to President Obama “As you begin your second term as President, we ask you to reiterate your readiness to take military action against Iran if it continues its efforts to acquire a nuclear weapon. In addition, we urge you to work with our Euro-
pean and Middle Eastern allies to demonstrate to
the Iranians that a credible and capable multilateral
coalition exists that would support a military strike
if, in the end, this is unfortunately necessary.”

(31) The United States-Israel Enhanced Secu-

rity Cooperation Act of 2012 (Public Law 112–150)

stated that it is United States policy to support
Israel’s inherent right to self-defense.

(b) SENSE OF CONGRESS.—Congress—

(1) reaffirms the special bonds of friendship
and cooperation that have existed between the
United States and the State of Israel for more than
sixty years and that enjoy overwhelming bipartisan
support in Congress and among the people of the
United States;

(2) strongly supports the close military, intel-
ligence, and security cooperation that President
Obama has pursued with Israel and urges this co-
operation to continue and deepen;

(3) deplores and condemns, in the strongest
possible terms, the reprehensible statements and
policies of the leaders of the Islamic Republic of Iran
threatening the security and existence of Israel;

(4) recognizes the tremendous threat posed to
the United States, the West, and Israel by the Gov-
ernment of Iran’s continuing pursuit of a nuclear

SEC. 1273. SENSE OF CONGRESS ON THE ILLEGAL NUCLEAR WEAPONS PROGRAMS OF IRAN AND NORTH KOREA.

It is the sense of Congress that—

(1) the paramount security concern of the United States is the ongoing and illegal nuclear weapons programs of the Islamic Republic of Iran and the Democratic People’s Republic of Korea;

refrain from developing or acquiring their own nuclear weapons capability;

SEC. 3122. EXTENSION OF PRINCIPLES OF PILOT PROGRAM TO ADDITIONAL FACILITIES OF THE NUCLEAR SECURITY ENTERPRISE.

(a) FINDINGS.—Congress finds the following:
(1) In April 2006, the Administrator for Nuclear Security initiated a pilot program to improve and streamline oversight of the Kansas City Plant of the National Nuclear Security Administration.
(2) In a memorandum initiating the pilot, the Administrator cited slow progress in implementing previous efforts to streamline such oversight, saying that such slow progress “is a reflection of excessive risk aversion”.
(3) The pilot program shifted away from reliance on directives of the Department of Energy and toward third-party certification and industrial standards whenever possible—but the pilot program spe-
cifically exempted certain high-hazard operations from its scope.

(4) An independent assessment conducted one year after initiation of the pilot found approximately $14,000,000 had been saved in fiscal year 2007 because of the pilot program.

(5) The independent assessment found that “the replacement of Department of Energy prescriptive requirements with site specific standards and operating systems was observed to be a significant cost reduction driver * * * in several business areas, this reduction was accomplished by moving toward the use of metrics and benchmarks rather than transactional oversight.”.

(6) The independent assessment further found that “no immediate or negative impacts were observed as a result” of the pilot program and that “the lessons learned at [the Kansas City Plant] can and should be applied at other NNSA and DOE sites”, while acknowledging that application of such lessons would be limited by the presence of high-risk, high-hazard activities at such locations.

(7) The independent assessment concluded, “it is our opinion that these elements can be encouraged and developed over time at each NNSA facility, sub
ject to the limitations made necessary by the nature
of the site.”.

(b) EXTENSION OF POLICIES.—

(1) IN GENERAL.—Except as provided by para-
graph (2), the Administrator for Nuclear Security
shall—

(A) ensure that the principles of the pilot
program are permanently implemented at the
Kansas City Plant of the National Nuclear Se-
curity Administration; and

(B) in accordance with paragraph (3), ex-
tend such principles of the pilot program, with
modifications as the Administrator determines
appropriate, to not less than two additional fa-
cilities of the nuclear security enterprise (as de-
fined in section 4002(5) of the Atomic Energy
Defense Act (50 U.S.C. 2501(5)), with such
principles commencing at each facility not later
than one year after the date of the enactment
of this Act.

(2) EXEMPTION.—In carrying out the extension
of the principles of the pilot program pursuant to
subparagraph (A) and (B) of paragraph (1), the Ad-
ministrator—
(A) may exempt high-hazard or high-risk activities from such extension;

(B) shall exempt nuclear operations from such extension; and

(C) shall focus the initial extension of such principles on low-risk, high-reward initiatives.

(3) IMPLEMENTATION.—

(A) In extending the principles of the pilot program to not less than two facilities under paragraph (1)(B), the Administrator shall certify to the appropriate congressional committees that—

(i) the management and operating contractor for such a facility has sufficiently mature processes, as well as high performance, to enable the extension without undue risk; and

(ii) Federal oversight mechanisms are in place and sufficiently mature to enable the extension without undue risk.

(B) If the Administrator cannot make a certification under subparagraph (A) with respect to a facility—

(i) the Administrator shall delay the extension of the principles of the pilot pro-
gram to such facility until the date on which the Administrator makes such certification; and

(ii) not later than one year after the date of the enactment of this Act, the Administrator shall submit to the appropriate congressional committees a report regarding—

(I) the improvements to processes, procedures, and performance that are required to make such certification;

(II) a plan with respect to the activities that the Administrator will carry out to make such improvements;

and

(III) the date by which the Administrator expects to make such certification and extend the principles of the pilot program.

(4) DEFINITIONS.—In this subsection:

(A) The term “appropriate congressional committees” means the following:

(i) The congressional defense committees.
(ii) The Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives.

(B) The term “principles of the pilot program” means the principles regarding the use of third-party certification, industrial standards, best business practices, and verification of internal procedures and performance to improve and streamline oversight, as demonstrated in the pilot program at the Kansas City Plant of the Administration described in subsection (a)(1).

SEC. 3503. SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) It is in the interest of United States national security that the United States merchant marine, both ships and mariners, serve as a naval auxiliary in times of war or national emergency.

(2) The readiness of the United States merchant fleet should be augmented by a Government-owned reserve fleet comprised of ships with national defense features that may not be available immediately in sufficient numbers or types in the active
United States-owned, United States-flagged, and United States-crewed commercial industry.

(3) The Ready Reserve Force of the Maritime Administration, a component of the National Defense Reserve Fleet, plays an important role in United States national security by providing necessary readiness and efficiency in the form of a Government-owned sealift fleet.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) maintaining a United States shipbuilding base is critical to meeting United States national security requirements;

(2) it is of vital importance that the Ready Reserve Force of the Maritime Administration remains capable, modern, and efficient in order to best serve the national security needs of the United States in times of war or national emergency;

(3) Federal agencies must consider investment options for replacing aging vessels within the Ready Reserve Force to meet future operational commitments;

(4) investment in recapitalizing the Ready Reserve Force may include—
(A) construction of dual-use vessels, based on need, for use in the America’s Marine Highway Program of the Department of Transportation, as a recent study performed under a cooperative agreement between the Maritime Administration and the Navy demonstrated that dual-use vessels transporting domestic freight between United States ports could be called upon to supplement sealift capacity;

(B) construction of tanker vessels to meet military transport needs; and

(C) construction of vessels for use in transporting potential new energy exports; and

(5) the Department of Transportation, in consultation with the Navy, should pursue the most cost-effective means of recapitalizing the Ready Reserve Force, including by promoting the building of new vessels that are militarily useful and commercially viable.
